Preface.

THIS volume, of which the present is the third issue, has taken the place of two publications which until 1893 were issued annually by the Government of India. These were the "Finance and Revenue Accounts and Miscellaneous Statistics relating to the Finances of British India, Part III," of which the 15th and last issue was published in 1893, and the "Statistical Tables relating to British India," of which the 17th and last issue was also published in 1893.

The present issue contains, in addition to all the features of the second issue, a new section (Part II of the volume) shewing for twenty years the revenue and expenditure of the Empire under the prescribed heads of account.

A new table has also been inserted in Part V, Excise (No. 17).

J. E. O'CONOR,
Director General of Statistics.

FINANCIAL AND COMMERCIAL STATISTICS.

CONTENTS.

	Pages
SUMMARIES.	
SUMMARIES OF TABLES AND EXPLANATORY MEMORANDA	xvii to lii
I.—AREA AND POPULATION.	
No. OF TABLE.

17. VALUE of small SILVER COIN and COPPER COIN received in each PRESIDENCY and PROVINCE, from the MINT and from other PRESIDENCIES and PROVINCES, less supplies to other PROVINCES, in each year, from 1882-83 to 1894-95 239

18. VALUE of each DENOMINATION of small SILVER COIN received in each PRESIDENCY and PROVINCE, from the MINT and from other PRESIDENCIES and PROVINCES, less supplies to other PROVINCES, in each year, from 1882-83 to 1894-95 240

19. VALUE of each DENOMINATION of COPPER COIN received in each PRESIDENCY and PROVINCE from the MINT, and from other PRESIDENCIES and PROVINCES, less supplies to other PROVINCES in each year, from 1882-83 to 1894-95 241

20. TABLE shewing OUTTURN of SILVER BULLION, or SPECIE REMITTANCE, from ENGLAND to INDIA—
(1) EXPLANATORY REMARKS 242
(2) INTEREST calculated at ⅛ and ¼ per cent. for 7 and 28 days, respectively ... ... 243 to 248

21. TABLE shewing the monthly FLUCTUATIONS in the PRICE of BAR SILVER in LONDON per standard ounce, from January 1833 to December 1895 ... ... 250 to 253

XI.—POST OFFICE.

1. GROSS REVENUE, COST OF MANAGEMENT, and NET REVENUE of the POST OFFICE in each year, from 1853-54 to 1894-95 ... ... 254 & 255

2. Number of POST OFFICES open at the close of each year, and the Distance over which MAILS were conveyed, from 1854-55 to 1894-95 256

3. DETAIL of CHARGES for the CENTRAL CONTROL of the POST OFFICE in each year, from 1854-55 to 1894-95 257

4. GROSS VALUE of OFFICIAL POSTAGE LEVIED and SERVICE POSTAGE LABELS SOLD in each year, from 1866-67 to 1894-95 ... ... 258 & 259

5. DETAIL of RECEIPTS and CHARGES for each SEPARATE DEPARTMENT managed by the POST OFFICE in each PRESIDENCY and PROVINCE in each year, from 1853-54 to 1894-95 ... ... 260 & 261

6. TOTAL RECEIPTS and CHARGES of the POST OFFICE in each PRESIDENCY and PROVINCE in each year, from 1853-54 to 1894-95 ... ... 262 & 263

7. TOTAL RECEIPTS and CHARGES of the several SEPARATE DEPARTMENTS managed by the POST OFFICE in DETAIL for each PRESIDENCY and PROVINCE in each year, from 1853-54 to 1894-95 ... ... 264 & 265

DETAIL of the GROSS REVENUE and EXPENDITURE of the POSTAL DEPARTMENT in each year, from 1853-54 to 1894-95, for—

8. BENGAL (LOWER PROVINCES) ... ... 266 & 267

9. MADRAS PRESIDENCY ... ... 268 & 269

10. BOMBAY PRESIDENCY ... ... 270 & 271

11. N.-W. PROVINCES and OUDH 272

„ RAJPUTANA, from 1872-73 ... ... *ib.*

„ PANJAB, from 1861-62 273

„ SIND, from 1869-70 ... ... *ib.*

„ CENTRAL PROVINCES, from 1866-67 (11 months) 274

„ BURMA ... ... *ib.*

„ ASSAM, from 1874-75 275

„ RAILWAY MAIL SERVICE, from 1878-79 ... ... *ib.*

„ CENTRAL INDIA „ 1880-81 ... ... *ib.*

XI.—POST OFFICE—*continued.*

No. of Table.		Pages
12.	Number of Letters, Newspapers, Parcels and Packets received for delivery in the Post Offices in India in each year, from 1853-54 to 1894-95	276 & 277
13. (1)	Number of Paid, Unpaid, Registered, Insured, Value-Payable, Service privileged Letters, Post Cards, and Reply Post Cards received for delivery in the Post Offices in each Presidency and Province in each year, from 1853-54 to 1894-95	278 & 279
(2)	Number of Newspapers received for delivery in the Post Offices in each Presidency and Province in each year, from 1853-54 to 1894-95	280
(3)	Number of Paid, Unpaid, Insured and Value-Payable Parcels received for delivery in the Post Offices in each Presidency and Province in each year, from 1853-54 to 1894-95	281
(4)	Number of Unregistered, Registered, Value-Payable Registered and Value-Payable Unregistered Packets received for delivery in the Post Offices in each Presidency and Province in each year, from 1853-54 to 1894-95	282
14.	Number of ordinary Postage Stamps of each Denomination sold by the Postal Department, and the Total Gross Value Realised, from 1856-57 to 1894-95	284 & 285
15.	Ditto of Service Postage Stamps ditto ditto ditto, from 1866-67 to 1894-95 ...	286
16.	Ditto of Articles Received at, and Disposed of by, the Dead Letter Offices at Calcutta, Madras, Bombay, Lucknow, Lahore, Nagpur, Ajmere, Rangoon, Dinapur and Karachi during 1894-95	*ib.*
17.	Correspondence sent to, and received from, the District Post by the General Post Office in each Circle during 1894-95	287

XII.—MONEY ORDERS.

1.	Receipts from Number and Value of Money Orders issued and paid, and Number of Money Order Offices open in each year, from 1862-63 to 1894-95	288 & 289
2.	Number and Value of Money Orders issued in each Presidency and Province in each year, from 1866-67 to 1894-95	290 to 293
3.	Number and Value of Money Orders paid in each Presidency and Province in each year, from 1866-67 to 1894-95	294 to 297
4.	Amount of Commission received in each Presidency and Province in each year, from 1866-67 to 1894-95	298 & 299

XIII.—BANKS.

1.	Deposits (including Interest), Withdrawals and Balances in the several classes of Savings Banks from 1857-58 to 1894-95 (in thousands of Rupees) as entered in the Finance and Revenue Accounts ...	300 & 301
2.	Transactions of the three Presidency Savings Banks, and the Allowance paid for their management, from 1867-68 to 1894-95	302 & 303
3.	Transactions of the District, Post Office, and Military Savings Banks, and State Railway and Civil Engineers' Provident Institutions	304 to 306
4.	Number and Amount of Dividends declared by the Bank of Bengal, Amount of Dividends received by Government, Amount per Share, and the Market Price of each Share, from 1840 to 31st December 1895	307

XIV.—TELEGRAPH.

1.	Revenue and Expenditure, Number of Circles and Signal Offices open, Length of Telegraph Line and Wire, and Number and Value of Messages, from the commencement of the Government Indian Telegraph Department to 31st March 1895	308
2.	Revenue and Expenditure of the Government Indian Telegraph Department, from its commencement to 31st March 1895, shewing Surplus or Deficit of each year as struck, respectively, on the Total Expenditure and on Working Expenses	309
3.	Capital and Revenue of the Government Indian Telegraph Department, from its commencement to 31st March 1895	310 & 311
4.	Number of Departmental Signal Offices open in each Division at the close of each official year, from 1859-60 to 1894-95	312 & 313
5.	Length of Telegraph Line and Wire, respectively, open in the Several Divisions in each year, from 1851-52 to 1894-95	314 to 317
6.	Number and Value of Messages in Imperial Offices in each Division, in each year, from 1889-90 to 1894-95	318 & 319
7.	Provincial Lines (Bombay and Bengal).—Number and Value of Messages in each year, from the opening of the Lines in 1886-87 to 1891-92	320 & 321
8.	Total Number of Messages (State, Private, and Free) in Imperial Offices in each Division of the Telegraph Department in each year, from 1867-68 to 1894-95	320 to 323

XV.—RAILWAYS.

No. of Table.		Pages
1.	Statement showing the progress of State Railways in India	324 to 331
2.	Approximate distribution of mileage of Railways by Provinces at the end of the year 1894-95 ...	332 to 335
3.	Earnings and Expenses of Indian Railways during the year 1894	336 & 337
4.	Number of Passengers conveyed on each Railway in India in each of the calendar years 1887 to 1894	338 & 339
5.	Number of tons of goods and minerals conveyed on each Railway in India in each of the calendar years 1887 to 1894	340 & 341
6.	Gross Earnings of each Railway in India from coaching traffic in each of the calendar years 1887 to 1894	342 & 343
7.	Gross Earnings of each Railway in India from goods traffic in each of the calendar years 1887 to 1894	344 & 345
8.	Gross Earnings (from both coaching and goods traffic) of each Railway in India in each of the calendar years 1887 to 1894	346 & 347
9.	Gross Earnings (coaching and goods) per mile of each Railway in India in each of the calendar years 1887 to 1894	348 & 349

XVI.—REGISTERED DEBT.

1.	Registered Debt in England and in India at the close of each year, from 1820-21 to 1894-95, also the Annual Amount of Interest payable thereon	350 to 353
2.	Registered Debt in England and India, the Net Amounts borrowed and paid off, the Adjusted Cash Balances on the last day of each year, and the Ultimate Results in each year, from 1820-21 to 1894-95	354 & 355
3.	Comparative Detailed Statement of Increase and Decrease of Registered Debt in England and in India, together with a Statement of Cash Balances on the last day of each year, from 1820-21 to 1894-95	356 to 359
4.	Registered Debt and other Loans and Liabilities bearing Interest in India, in each year, from 1820-21 to 1894-95	360 & 361
5.	Proportion of the Registered Debt of India as held by Europeans and Natives, respectively, prepared on the basis of the Interest paid on each Loan at all the Treasuries throughout India, during the half-year ending 31st December 1895	362 & 363
6.	Particulars of Loans raised in England, and Outstanding on the 31st March 1895	364 & 365
7.	Amount of each Loan held in India and London on the 31st March 1895	366
8.	Amount of Interest due on the Public Debt of India in each month of the year, from 1889-90 to 1894-95	367

XVII.—HOME DRAWINGS.

1.	Amount of Bills drawn by the Home Authorities on Calcutta, Madras, and Bombay, with the drawing rates; the Payment of Railway Capital into the Home Treasury, less withdrawals in England; and the Amount borrowed in England in each year, from 1834-35 to 1894-95...	368 & 369
2.	Highest and Lowest Rates of Exchange (in pence) on Bills drawn by the Secretary of State for India in each month in each year, from 1882-83 to 1894-95	370 & 371
3.	Amount of Bills drawn by the Home Government, and the Average Rate of Exchange in each month in each year, from 1882-83 to 1894-95	372 & 373
4.	Ditto on India, and the average Rate of Exchange in ditto, from ditto to ditto	*ib.*
5.	Amount of Home Bills paid in Calcutta, Bombay, and Madras, from 1854-55 to 1894-95, and the Credit or Charge for Exchange during that period	374 & 375
6.	Total amount of Home Bills paid in India, from ditto to ditto	*ib.*

XVIII.—WAYS AND MEANS OF THE HOME GOVERNMENT.

1.	Disbursements in England from 1834-35 to 1894-95, and the ways and means by which they were met...	376 & 377
1A.	Table shewing particulars of large or exceptional Payments included in the Disbursements shewn in Table No. 1 (column 2)	378

XIX.—INTEREST PAYABLE IN LONDON.

1.	Amount of Promissory Notes of all Loans enfaced for Payment of Interest in London and Outstanding in the London Register at the end of each month in each calendar year, from 1872 to 1894; also the Rate of Exchange on London during the same period	380 & 381

No. of Table.		Pages
	XX.—PRICES.	
1.	Selling Price of Government Securities at Calcutta in each month, from 1880-81 to December 1895	382 & 383
2.	Price of Silver in London and its Relative Value to Gold, also Price of English Gold (in Bars) in India, and its Relative Value to Silver, from 1862 to December 1895	384 to 389
3.	Monthly Return of Exchange and Discount on London, Rates of Interest and Discount, Price of Sovereigns and of Gold in India, Price of Silver in London, and the Drawings of the Home Government, from January 1861 to December 1895	390 to 398
4.	Monthly Average mean Quotations of Government Securities held in London up to December 1895	399 to 401
	XXI.—EMIGRATION.	
1.	Emigration from, and return of Emigrants to, Calcutta during each official year, from 1885-86 to 1894-95	402 & 403
2.	Ditto ditto, Madras, during each official year, from 1885-86 to 1894-95	*ib.*
3.	Ditto ditto, Karikal and Pondichery during each official year from 1885-86 to 1894-95...	*ib.*
4.	Districts from which the Emigrants were drawn who were shipped from Calcutta, Madras, Pondichery, and Karikal in each official year, from 1885-86 to 1894-95	404
5.	Abstract Table showing the number of Emigrants who left India, and the number who returned to India, in each of the official years 1885-86 to 1894-95	*ib.*
	XXII.—NATIVE PASSENGER SHIPS.	
1.	Statement of Passengers carried under the Native Passenger Ships Act X of 1887 (not being Emigrants or Pilgrims) who sailed, on long voyages, from Indian Ports in 1894-95	405
2.	Statement of Passengers carried under the Native Passenger Ships Act X of 1887 (not being Emigrants or Pilgrims) who sailed, on short voyages, from Indian Ports in 1894-95	405 to 407
3.	Abstract of Tables 1 and 2	408
	XXIII.—COTTON MILLS.	
1.	Statement of the Cotton Mills worked by Steam in India in the official year 1894-95	410 to 415
2.	Abstract Table of seventeen years' Progress in the Cotton Manufacturing Industry in India...	414 & 415
	XXIV.—JUTE AND HEMP MILLS.	
1.	Statement of the Jute and Hemp Mills worked by Steam in India in the official year 1894-95 ...	416 & 417
2.	Abstract Table of sixteen years' Progress in the Jute Manufacturing Industry in India ...	*ib.*
	XXV.—WOOLLEN MILLS.	
1.	Statement of the Woollen Mills in India on the 31st December 1895	418
2.	Abstract Table of twelve years' Progress in the Woollen Mills Industry in India	*ib.*
	XXVI.—PAPER MILLS.	
1.	Statement of the Paper Mills in India on the 31st December 1895	419
2.	Abstract Table of eleven years' Progress in the Paper Mills Industry in India	*ib.*
	XXVII.—BREWERIES.	
1.	Breweries in operation in British India during the calendar years 1890 to 1895	420
2.	Abstract Table of ten years' Progress in the Brewing Industry in British India	*ib.*
3.	Quantity, in gallons, of Indian-brewed Beer purchased by the Commissariat Department in the years 1886 to 1895	*ib.*

No. of Table.		Pages
	XXVIII.—COLLIERIES.	
1.	Statement relating to Collieries in India in the calendar year 1894	421 to 423
2.	Abstract Table of ten years' Progress in the Coal-mining Industry in India	423
3.	Quantity, in tons, of Coal produced in each province in India, in each year, from 1878 to 1894 ...	*ib.*
	XXIX.—LARGE INDUSTRIES NOT SEPARATELY TREATED.	
1.	General List for the calendar year 1894:—	
	Bone-Crushing Mills	424
	Cement Works	*ib.*
	Coffee Works	424 & 425
	Cotton Ginning, Cleaning, and Pressing Mills	425 to 435
	Cotton Spinning and Weaving Establishments not classed as Mills	435 & 436
	Cutch Factories	436
	Flour Mills	436 & 437
	Glass Factories	437
	Ice Factories	437 & 438
	Indigo Factories	438 to 440
	Iron and Brass Foundries	440 & 441
	Jute Presses	441 & 442
	Lac Factories	442
	Mineral and Ærated Water Manufactories	442 to 445
	Mines (other than Coal Mines)	445 & 446
	Oil Mills and Wells	446 & 447
	Potteries	447 & 448
	Quarries	448
	Rice Mills	*ib.*
	Rope Works	*ib.*
	Saltpetre Refineries	449
	Silk Filatures	*ib.*
	Silk Mills	*ib.*
	Soap Factories	450
	Sugar Factories	*ib.*
	Tanneries	450 & 451
	Tile Manufactories	451
	Timber Mills	451 & 452
	Tobacco Farms and Factories	452 & 453
	Wool Weaving Establishments not classed as Mills	453
	Miscellaneous	*ib.*
2.	Abstract Table of fourteen years' Progress	454 to 457
	XXX.—JOINT STOCK COMPANIES.	
1.	List of Joint Stock Companies in each Presidency and Province in British India at work on the 31st March 1895	458 to 494
2.	Abstract Table for the year 1894-95	495
3.	Abstract Table showing fourteen years' Progress in Joint Stock enterprise	*ib.*
	XXXI.—FOREIGN TRADE AND SHIPPING.	
1.	Total value of Merchandise and Treasure Imported and Exported at Ports in British India, from 1834-35 to 1894-95	497
2.	Total value for each Presidency and Province of Imports and Exports of Merchandise and Treasure, from 1834-35 to 1894-95	498 & 499
3.	Value of Merchandise and Treasure Imported from each Foreign Country at Ports in British India, from 1850-51 to 1894-95	500 to 503

XXXI.—FOREIGN TRADE AND SHIPPING—*contd.*

No. of Table.		Pages
4.	Quantities and value of Articles of Foreign Merchandise Imported at Ports in British India, from 1877-78 to 1894-95	504 to 507
5.	Value of Merchandise and Treasure Imported from each Foreign Country into each Presidency and Province, from 1885-86 to 1894-95	508 & 509
6.	Value of Articles of Merchandise Imported from Foreign Countries into each Presidency and Province, from 1877-78 to 1894-95	510 to 515
7.	Value of Merchandise and Treasure Exported to each Foreign Country at Ports in British India, from 1850-51 to 1894-95	516 to 519
8.	Quantities and value of Articles of Merchandise Exported at Ports in British India, from 1877-78 to 1894-95	520 & 521
9.	Value of Merchandise and Treasure Exported to each Foreign Country from each Presidency and Province, from 1885-86 to 1894-95	522 & 523
10.	Value of Articles of Merchandise Exported from each Presidency and Province, from 1877-78 to 1894-95	524 to 527
	Trade with the United Kingdom.	
11.	Total value of Imports and Exports of Merchandise at Ports in each Presidency, from 1853-54 to 1894-95	528 & 529
12.	Value of Articles Imported and Exported at Ports in British India, from 1853-54 to 1894-95 ...	530 to 533
	Abstract table of provincial and total trade.	
13.	Value of the Total Import and Export of Merchandise into and from British India, and into and from each Presidency and Province in each month of the years 1890-91 to 1894-95	534 & 535
	Foreign trade of the 17 most important ports.	
14.	Value of the Total Foreign Trade (excluding Government transactions) during the official years 1885-86 to 1894-95 of the 17 Ports in British India which had the largest trade with Foreign Countries during those years	536
	Statistics of import and export of Treasure.	
15.	Total value of Gold and Silver Imported and Exported at Ports in British India, from 1834-35 to 1894-95	537
16.	Value of Gold and Silver Imported from each Foreign Country at Ports in British India, from 1877-78 to 1894-95	538 & 539
17.	Value of Gold and Silver Exported to each Foreign Country at Ports in British India, from 1877-78 to 1894-95	540 & 541
	Shipping.	
18.	Number and Tonnage of Vessels (distinguishing Native craft) that entered and cleared for the Foreign trade at Ports in each Presidency and Province and in British India, from 1877-78 to 1894-95	542 to 545
19.	Number and Tonnage of Vessels of each Nation that entered from Foreign Countries at Ports in British India, from 1877-78 to 1894-95	546 & 547
20.	Number and Tonnage of Vessels of each Nation that cleared to Foreign Countries at Ports in British India, from 1877-78 to 1894-95	548 & 549
21.	Number and Tonnage of Steam and Sailing Vessels entered and cleared, with Cargo, in the official years 1885-86 to 1894-95, at the 17 Ports which had the largest trade with Foreign Countries during those years	550 & 551

XXXII.—WRECKS.

1.	Number and Tonnage of British and British Indian Vessels and Native craft totally lost in Indian waters in the years 1876 to 1894	552

SUMMARY OF CONTENTS AND EXPLANATORY MEMORANDA.

I.

AREA AND POPULATION.

[TABLES 1 TO 8, PAGES 1 TO 22.]

The area of the Empire is a little over 1½ million (1,560,080) square miles, but this does not include certain tracts the area of which has yet to be determined. This area contained 52,499,061 inhabited houses, being in the proportion of about 34 to each square mile. The total population was about 287¼ millions (287,306,168), the average density being at the rate of 184 to the square mile. The census of 1891 shewed an increase of population amounting to about 9½ per cent over the census of 1881 in British territory, omitting those tracts for which no comparison can be made, namely, Upper Burma and Baluchistan. In the Feudatory States the increase, though much greater, is more apparent than real, the Census of 1881 in some of those States having been very defective. The three most densely populated provinces are Oudh with 522, Bengal with 471, and the North-Western Provinces with 411 to the square mile. The only other approach to this density is found in Travancore and Cochin, with an average of 405 to the square mile. In the British districts of Madras the average is 252, and in all other British territory the average is much lower, being as small as 53 in Lower Burma and 35 in Upper Burma. In Kashmir the average falls to 31 to the square mile, the mountain ranges beyond the valley being very sparsely inhabited. Of the total population, 175,373,459 persons (male and female), being 61 per cent of the whole, are dependent on agriculture. There are also 25,474,133, being 8·87 per cent, classed as labourers. These two classes, therefore, constitute nearly 70 per cent of the population, and as the majority of the labourers work in the fields, it may be said that well over two-thirds of the people are dependent directly on the land. Persons engaged in commerce and trade number 8,638,485, being about 3 per cent, and persons engaged in industrial occupations 47,594,511, being about 16½ per cent of the population.

There are 76 towns with a population exceeding 50,000; of these 28 have a population exceeding 100,000, and 6 a population exceeding 200,000.

III.

SALT.

[TABLES 1 TO 21, PAGES 28 TO 54.]

Production.

The total quantity of salt produced in India in 1895 was a little over 29⅓ millions of maunds. This was much less than the production of 1894, but it was greatly in excess of the average of the three years preceding 1894. The production fluctuates from year to year according to seasonal conditions. This quantity was supplemented by 11,121,804 maunds of imported salt, the total quantity produced and imported amounting to 40,327,182 maunds over 72 per cent of the whole being produced in India. Importation is practically limited to salt brought to Bengal and Burma from England, Germany, other countries in Europe, Aden, Muscat, Jeddah, and a few other places. Only a quite insignificant quantity is imported elsewhere than in Bengal and Burma, but there is also a trifling trans-Himálayan import. The localities where salt is manufactured are these:—

	Production in Maunds.

Consumption and Revenue.

In 1895-96, 34,590,015 maunds of salt paid duty, the duty realised amounting (exclusive of miscellaneous receipts) to Rx. 8,312,097, the quantity being 1·29 per cent and the duty 0·55 per cent more than in the previous year.

III—*continued.*

SALT—*continued.*

The following figures shew for the last six years the quantity imported and produced in India and the quantity which paid duty :—

	Imported and produced. Mds.	Paid duty. Mds.
1890-91	39,440,209	33,291,643
1891-92	36,952,095	34,451,228
1892-93	33,331,675	35,051,290
1893-94	33,129,207	33,628,156
1894-95	47,967,683	34,150,872
1895-96	40,327,182	34,590,015

The subjoined table shews the progress in consumption in the last twenty-eight years. In the five years ending with 1877-78 the increase was small, hardly exceeding an annual average of 1 per cent. In the next five years ending 1882-83 the rate of increase was nearly 3 per cent yearly. In the five years ending 1887-88 consumption again increased, the average annual rate being over 3 per cent. In 1888-89 consumption was restricted, mainly in consequence of the increase of the tax in January 1888, from R2 to R2½ in India and from three annas to sixteen annas in Burma. Prices were also kept at a comparatively high level in Bengal and in Madras. Consumption has since recovered, but the average of the five years ending 1892-93 was only 3·11 per cent in excess of that of the previous five years. The average of the three years ending 1895-96 was 2·04 per cent in excess of that of the last quinquennial period.

Years.	Average annual quantity.	Average annual duty.	Percentage of increase or decrease in each period compared with the preceding period.	
	Maunds.	*Rx.*	Quantity.	Duty.
1868-69 to 1872-73	22,973,432	5,751,972	...	...
1873-74 to 1877-78	24,183,707	5,979,764	+ 5·27	+ 3·96
1878-79 to 1882-83	27,771,372	6,589,909	+ 14·84	+ 10·2
1883-84 to 1887-88	32,430,487	6,147,763	+ 16·78	— 6·7
1888-89 to 1892-93	33,439,787	8,027,856	+ 3·11	+ 30·58
1893-94	33,628,156	8,051,397	+ 0·57	+ 0·29
1894-95	34,150,872	8,266,905	+ 1·55	+ 2·68
1895-96	34,590,015	8,312,097	+ 1·29	+ 0·55

The duty realised in each of the six years 1890-91 to 1895-96 is thus apportioned between the different provinces :—

	1890-91. *Rx.*	1891-92. *Rx.*	1892-93. *Rx.*	1893-94. *Rx.*	1894-95. *Rx.*	1895-96. *Rx.*
Bengal	2,455,628	2,516,628	2,542,756	2,506,920	2,584,564	2,603,736

Bengal (Lower Provinces).

Tax levied on salt under the Muhammadan Government.

Under the Muhammadan rule a tax was levied on the salt consumed by the people of Bengal by means of imposts on the privilege of manufacture, and duties on the transportation of salt from the places of manufacture to the interior of the country.

Commencement of the East India Company's monopoly.

A monopoly for the manufacture and sale of salt was first established in Bengal by Lord Clive in 1765, the chief object being to provide fitting emoluments from the profits for the principal persons concerned in the Government, and thus to prevent their mixing in the intrigues and questionable transactions by which Civil Servants and others in those days often amassed enormous fortunes. Half the monopoly profits were to be distributed among the officers of Government, and the other half it was proposed to credit to the Company. In his minute of the 3rd September 1766, Lord Clive assumed that this share would yield, "according to the present state of the salt trade, from 12 to 13 lakhs of rupees annually." The rate fixed for deliveries was R2 per maund.

The existence of this monopoly was of but short duration, as the Court of Directors entirely disapproved the arrangements. At the same time, however, the Court stated that they did not object to the levying of the ancient duties on salt, which had always constituted part of the revenues of Bengal.

In the year 1772 the manufacture and wholesale trade of salt was farmed out by Government to private individuals; but this complicated farming system was never very productive and soon failed.

Establishment of the Company's salt agencies.

In 1780 Warren Hastings introduced a system for the manufacture and sale of salt under the agency of the Company's Civil Servants. In accordance with this system, the molunghees received advances from the agents at the beginning of the season, on the stipulation that they delivered their salt to the Government, when made, at a certain price, and the agents afterwards stored the salt and sold it to wholesale dealers at a price fixed from year to year by the Government.

III—*continued.*

SALT—*continued.*

Bengal (*Lower Provinces*)—continued.

The difference between the price agreed upon with the molunghees and the price at which it was delivered from store to the traders was thus in effect the duty levied upon the salt.

In 1788 the sale of salt by public auction, instead of at fixed rates to the dealers, was introduced by Lord Cornwallis. The revenue immediately rose, but the system was eventually abolished by the Court of Directors in 1837, as it was found to lead to the establishment of sub-monopolies, injurious to the interests of both the people and the Government.

Introduction of a fixed duty system.

In their despatch of the 4th January 1837, the Court of Directors ordered that the price to be thenceforward paid by the purchasers of salt should be determined by the cost price of manufacture, added to a fixed rate of duty.

The rates of duty since fixed from time to time have varied from a maximum of R3-4 to a minimum of R2 per maund; but the system for the manufacture and supply of salt, as introduced by Warren Hastings in 1780, continued in force with but few modifications until the year 1862, when the several salt agencies were gradually abolished, leaving the supply of salt, either by importation or excise manufacture, to private enterprise. The several salt agencies were situated in the province of Orissa and in the districts of Chittagong, the 24-Parganas, Jessore, and Midnapore.

Exception in the rule as regards the fixed duty.

The full rate of duty on salt was not, however, levied uniformly throughout Bengal until 1862. From the year 1810 a system of retail sales at reduced prices from shops established on the part of Government was introduced in districts and localities where salt was manufactured, or was capable of being easily produced; the object being, as stated at the time, to leave the people residing in such tracts without excuse for violating the law under the temptation of a high rate of duty, and to obtain some revenue in a part of the country where, from the great facilities for smuggling, it had been found impracticable to realise full prices.

From inquiries held during the years 1860 and 1861, the Government concluded that the loss of revenue entailed by the remission of a large proportion of the duty on the salt consumed within the saliferous tracts was, under existing circumstances, far larger than would arise were the full duty levied.

The system of retail sales at reduced prices was therefore abolished from the year 1862.

Preventive arrangements for the protection of the revenue.

From the commencement of the salt monopoly, a preventive establishment was employed for the protection of the revenue. This establishment was for the most part separate from, and independent of, the agency constituted for the manufacture and supply of salt, and was employed in Northern Bihár to prevent the influx of more lightly taxed salt from the westward, and also within certain defined limits which included the saliferous tracts on the seaboard of Lower Bengal.

By Regulation X of 1819 the general control of this preventive department was vested in the Board of Customs, Salt and Opium established in that year.

On the passing of Act XIV of 1843, imposing an additional duty of one rupee per maund on salt passing from the North-Western Provinces to the eastward of Allahabad, the establishment in Bihár was withdrawn. The one rupee was in June 1847 reduced to 12 annas, and in April 1849 to 8 annas. In March 1861 the additional duty was abolished.

In Lower Bengal the limits within which the preventive force were entertained have been narrowed from time to time so as to concentrate their operations in the salt-producing tracts only.

A further check.

As a further check against illicit manufacture within these limits, all salt under transport was required to be conveyed by certain specified routes and pass stations, and to be covered by protective documents, under penalty of confiscation. Merchants and dealers were also required to record all sales and losses from their stocks on the reverse of their protective documents.

The law and rules on this subject have been modified from time to time. Those now in force are contained in Act VII of 1864 and the Government Notifications issued under that Act.

In 1863 the special preventive establishment was abolished, and all duties previously discharged by them were delegated to the regular police force. In addition to the sea-coast and salt-producing tracts, the police have also to guard the frontiers of Arakan to prevent the ingress of the more lightly taxed salt from those districts.

The administration of the Salt Department in Orissa was formally made over to the Commissioner of Salt Revenue, Madras, in February 1888, and the Indian Salt Act, XII of 1882, has been in force there since.

Commencement and progress of excise manufacture.

In 1835-36 the excise manufacture of salt was first commenced by private individuals, but the discontinuance of the system was ordered by the Court of Directors in 1840.

In 1847 the manufacture of salt under certain excise rules was again permitted, but for many years the quantity produced was very small.

Excise manufacture was carried on to a considerable extent in Orissa for some years, and the quantities made were at one time sufficient for the supply of the province; but latterly it has greatly fallen off. In 1867-68 it was recommenced, though on a small scale, in the district of the 24-Parganas, and continued until 1881-82, after which it was abandoned.

III—*continued.*

SALT—*continued.*

Bengal (*Lower Provinces*)—concluded.

In 1891 the direct manufacture of salt by Government was re-introduced into Orissa with a view to afford employment to the molunghees and reduce the price of salt.

Importations of salt by sea.

Foreign salt was first imported into Bengal in the year 1818-19. No large importations, however, occurred until the year 1835-36.

At first, and until the fixed duty system was adopted, customs dues were levied at such rates as were considered necessary to maintain the average prices of the Government sales.

The old stocks of salt manufactured at the Government agencies were exhausted in 1873-74, and since then the consumption in the whole of Bengal, with the exception of Orissa, may be said to have been supplied by imported salt.

The following are the descriptions of salt now commonly imported, the bulk of the importations being from Liverpool:—

Manufactured by solar evaporation: Bombay, Madras, Ceylon, Jeddah, Muscat, Aden, Italy, and France.
Manufactured by boiling: Liverpool and Hamburg.
Rock Salt: Muscat.

Rates of Duty.

The rate of duty on salt in Bengal has been as follows: From 1837 to 1844 ₹3-4-0 per maund. In November 1844 ₹3, in April 1847 ₹2-12-0, and in April 1849 ₹2-8-0. In December 1859 the duty was again raised to ₹3, and in March 1861 to ₹3-4-0. In January 1878 the rate was reduced to ₹3-2-0, in August 1878 to ₹2-14-0, and in March 1882 to ₹2. On 19th January 1888 the rate was raised to ₹2-8-0, this being the rate now levied.

Conventions with the French Government in the matter of salt.

In 1815 a convention was made with the French Government, under the terms of which the East India Company agreed to supply sufficient salt for the consumption of the French Settlement of Chandernagore at prime cost from the Orissa and Midnapore agencies. The quantities of salt thus supplied free of duty varied from maunds 4,000 to 12,000 annually. This arrangement held good until the year 1839, when the Company entered into an engagement to pay annually a sum of ₹20,000 to the French Government on their agreeing to buy their salt in the open market at the price paid for it by other inhabitants of Bengal. This payment is still continued.

Madras Presidency.

In 1805, what is known as the monopoly system was established. Under that system the private manufacturers, who occasionally received advances from Government, and who were paid at different rates varying with the locality, were prevented from selling the salt to any but Government. The salt was resold by Government at a price calculated to include the purchase money paid to the manufacturers and the expense of storage, transport, etc., reduced to an average for the whole Presidency. This price was independent of duty, and at first was two annas, but by Act XVIII of 1877 it was fixed at three annas per maund; this Act was repealed by Act XII of 1882, which, however, prescribed no minimum for Government salt. But by section 8 of the Act the Local Government was empowered to fix, by notification in the local official Gazette, the minimum price at which the Government salt should be sold. No such notification has been issued and three annas per maund is still adopted as the minimum price of salt in most of the Government factories, though in certain special cases the sale of Government salt at less than three annas per maund has been sanctioned with a view either to stimulate the trade or to get rid of the old stocks.

2. In the eastern maritime districts these arrangements prevailed without modification up to 1881-82. In 1882-83 the excise system was introduced in the group of factories near Tuticorin; and was at the end of 1893-94 in force in 51 out of 71 factories, including the new factories and extensions opened for the accumulation of Government reserve stocks. Under this system manufacture, storage, and sales are carried on under Government supervision on private account, subject only to the payment of the duty on removal from store *plus* a cess to cover interest on the capital cost of the works executed by Government under the old system, and made over to the licensees on the introduction of excise.

3. It was expected that one effect of the excise system would be a reduction in the cost of salt to the consumer. This expectation has not, however, been yet realised, prices having on the contrary risen in many places, owing to combination on the part of a few capitalists who have managed to get the licensees into their hands. Government is now endeavouring to control prices by forming, in suitable centres, reserve stocks of salt which can be put into the market at reasonable prices, whenever prices shew a tendency to rise too high, and the result of these measures so far is that prices have not risen further and seem to shew some tendency to fall. In the Chingleput District, however, most of the licensees became dissatisfied with their position of subjection to the capitalists and prayed for a reversion to the monopoly system. In compliance with their wishes Government has recently ordered that the factories in the Vayalur and Ennore circles be worked for sale of salt to Government from the season of 1896.

4. In Malabar no salt is manufactured, and the district is supplied by imports from Bombay, Goa, and other places. These imports were formerly made by Government, but Government withdrew from the trade in 1877. In South Canara the excise system was substituted for the monopoly system in 1877, but the local manufacture of salt was abolished in 1883-84, as the salt produced was of inferior quality, and the pans were difficult and expensive to guard. Even when salt was manufactured locally, the supply fell short of the demand, and

III—*continued.*

SALT—*continued.*

Madras Presidency—continued.

the deficiency was made good by importations from the Bombay Presidency as in Malabar. When these importations were made by the Government, that is, down to 1877-78 inclusive, the imported salt was sold at a price equal to the Madras duty, namely, the general gross selling price (less three annas a maund) *plus* the assumed cost of the salt. Private imports on payment of duty were also permitted, but the trade was almost non-existent until Government withdrew from importation, as the cost of salt sold by Government had been improperly fixed so low as to forbid competition. Since Government ceased to import the trade has greatly increased. Act XVI of 1879 renders the transport of salt in any vessel of less than 300 tons burden illegal on the west coast within a certain limit, unless under cover of passes which practically confine the privilege to duty-paid salt.

5. Certain quantities of salt are annually supplied to the French Settlements in the Madras Presidency, under an old convention with the French Government, at cost price. A further quantity, generally less than one thousand maunds annually, is also supplied at prime cost from the Canara District for the Amindivi Islands, but this salt does not now pass through the accounts of the Salt Department. It is purchased by the Collector of South Canara in the open market and supplied to the islanders at cost price inclusive of duty, the charges being adjusted in the accounts of the island.

6. When salt was purchased by the heap of 1,200 maunds without measurement or weighment, a discount of 5 per cent on the general selling price was allowed until 1877-78. In a few instances a larger discount was allowed to wholesale purchasers, in order to clear out stores in remote parts of a district, or for other special reasons, such as the clearances of old salt in the Kistna District, which had been injured in the cyclone of 1864.

7. The greater part of Mysore, a part of the Nizam's territory, and portions of the southern and eastern parts of the Central Provinces are supplied with Madras salt; but in these returns these supplies are not distinguished from the sales for consumption within the Madras Presidency.

8. The *general* selling price of salt in the Madras Presidency has been as follows, namely:—

9½	annas	a maund of 82⅔lbs	from 1805 to November 1809.
14	„	„ „	from November 1809 to a date in 1820.
9⅓	„	„ „	from 1820 to June 1828.
14	„	„ „	from June 1828 to 31st March 1844.
1	rupee 8	annas a maund,	reduced in the same year to 1 rupee a maund, from April 1844 to July 1859.
1	„ 2	„ „	from August 1859 to 2nd April 1861.
1	„ 6	„ „	from 3rd April to 23rd June 1861.
1	„ 8	„ „	from 24th June 1861 to a date in 1865-66.
1	„ 11	„ „	from a date in 1865-66 to October 1869.
2	rupees	a maund	from October 1869 to 27th December 1877.
2	„ 11	annas a maund	from 28th December 1877 to 9th March 1882.
2	„ 3	„ „	from 10th March 1882 to 18th January 1888.
2	„ 11	„ „	from 19th January 1888 to date.

These rates are inclusive, as observed in paragraph 1, of a cost price of two annas, or latterly of three annas per maund, and were formerly abated by 5 per cent for purchase, without measurement or weighment, of a heap of 1,200 maunds.

9. Until May 1865 Travancore and Cochin had monopolies of salt, the selling price in Travancore being R1-1 a maund and in Cochin 12 annas. By the convention of that year both States agreed to adopt the British Indian selling price of salt and to raise the rates at inland depôts, "so as to place the sale of Cochin, Travancore, and British India on the same footing in the market." The Cochin and Travancore States were to import salt from British India on the same terms as those on which it was imported into British Indian ports. The British Indian price was then R1-8, and, nominally at least, the selling price of the monopoly salt of Cochin and Travancore has followed the successive enhancements of the rate of duty in British territory.

Bombay Presidency, exclusive of Sind.

The salt produced in the Bombay Presidency is partially exported beyond the Presidency by land to Central India, including Rajputana and Malwa, the Central Provinces, the North-Western Provinces, and the Nizam's territories, and by sea to British and Foreign Malabar in the Madras Presidency, and to Calcutta and the Straits Settlements. Under existing arrangements exports, both by land and sea, pay full excise duty in Bombay, with the exception of those to Foreign Malabar, on which a nominal charge of 3 pies per maund only, to cover cost of establishment at the salt pans, is levied in pursuance of a trade convention concluded with Travancore and Cochin in 1865. Credit for periods varying from 60 to 90 days, according to destination, is allowed, however, in the case of full duty exports to the value of R2,000 and upwards, both by land and sea, on the exporter entering into an agreement and depositing Government securities, blank endorsed, of sufficient value to cover the duty. Until 1874 exports to the Malabar coast were free, subject to payment of customs duty on arrival, and the same system was followed temporarily in the case of exports to Calcutta from 1860 (until which year excise duty had been levied subject to four months' credit under bonds) to 1874. In that year the system of prepayment of excise duty was made

III—*continued.*

SALT—*continued.*

Bombay Presidency, exclusive of Sind—continued.

general. The plan of giving credit on security of Government paper was introduced almost simultaneously, and these arrangements have since been maintained with a short interruption during 1876-77, when exports to British Malabar were again allowed for a few months free of excise duty. Exports to Calcutta and to certain fixed ports on the Malabar coast are allowed a drawback of excise duty on actual wastage, not exceeding 5 per cent.

Mr. Plowden remarks in his report on salt in British India, dated 24th May 1856, that "it was not until the 15th December 1837 that salt was erected, by Act No. XXVII of that year, into a source of considerable revenue in the Presidency of Bombay; prior to that date it was one of many miscellaneous items, as under the Native Government."

Under Act XXVII of 1837 the manufacture of salt in the Bombay Presidency was placed under restriction, and the locally manufactured salt was, in common with the importations of salt by sea and land, subjected to a duty of eight annas a maund. The object of the duty was to compensate partially the loss to the general revenue from the abolition of inland transit duties. In 1844, to set off a further loss of revenue from the abolition of the moturpha, or tax on trades and professions, the duty was raised from 1st September to one rupee a maund, but immediately after it was reduced in the same month, with effect from the same date, to 12 annas a maund, at which rate it continued until August 1859, when it was raised to one rupee a maund, and was again raised on 13th April 1861 to one rupee four annas, and on 20th January 1865 to one rupee and eight annas a maund. By Act XXIV of 1869 the duty was raised to one rupee thirteen annas a maund, and by Act XVIII of 1877 to two rupees and eight annas a maund. By notification, dated 10th March 1882, the duty was reduced to rupees two a maund, and again by notification, dated 19th January 1888, raised to two rupees and eight annas a maund.

Except in Guzerat, the excise system is followed, under which licenses are issued for private manufacture at places approved by the officers of Salt Revenue, which are guarded, and from which no removals are allowed, except upon payment of the prescribed duty, or under the credit rules already referred to. In Guzerat, where all the works in British territory are the property of Government, the monopoly system was introduced in 1873-74, and manufacture was concentrated at two places only—Kharaghora on the borders of the Runn, and Balsár on the sea coast of the Surat District. At Kharaghora large crystal salt is made from brine wells under departmental supervision, bought from the manufacturers as it is ready, stored, and sold at the cost and risk of Government. At Balsár the salt is ordinary sea-salt, and Government merely fixes the price at which it is to be sold without taking it over or interfering directly with manufacture. A small quantity of salt is issued annually free of duty from the works at Kharaghora to certain Native States and Chiefs in pursuance of the arrangements for the establishment of the monopoly.

By a treaty concluded in 1880, the manufacture of salt in Portuguese territory was placed under the control of the British Government for a term of twelve years. On the expiry of certain tentative arrangements made for the first three years, the salt works in Diu were handed back to the Portuguese authorities and private manufacture stopped at all works in Damaun and Goa, except such of those in Goa whose owners were willing to work under the British excise system. Besides these, manufacture was carried on at a certain number of selected works, either by the Portuguese Government on their own account, or by contractors for the British Government, to supply the quantity (about 140,000 maunds) of duty-free or nominal duty salt required annually, under the terms of the treaty, for local consumption, fish-curing and manure, or by sub-lessees on the excise system on refund to the British Government of the fixed compensation paid by the latter to the proprietors concerned. This treaty came to an end on the 14th January 1892, when British control over the Portuguese salt works ceased.

There were formerly certain works in Cambay at which the duty was shared between the Nawab, a territorial owner, and the British Government as successor to the chouth formerly levied by the Peshwa. This arrangement, however, ceased in 1878, when the works were finally closed by agreement with the Nawab, under which he is paid ₹40,000 as annual compensation and gets 500 maunds duty-free salt for his own consumption.

Besides the duty-free salt issued to certain Chiefs in Guzerat, the Nawab of Janjira is allowed, under a salt and customs convention concluded in 1884, to purchase and remove duty-free from the neighbouring salt works in British territory the quantity required for the use of himself and his subjects.

Sind.

Until the establishment of British rule, when the system was discontinued, a revenue was derived from salt under the system of *batai*, that is, a share of proceeds.

From 1843-44 (when Sind was annexed) to 1847 no duty was levied on salt.

About the year 1848 certain native speculators applied for permission to export to Bombay and Calcutta salt from the Sirganda deposit in the Shahbandar Division of the Karáchi District—a very extensive deposit of the purest salt—and were permitted to do so on payment of an excise duty of 12 annas per maund, which was the rate of duty in the Bombay Presidency at that time, a drawback to that amount being allowed at the place of import beyond Bombay.

III—*continued.*

SALT—*continued.*

Sind—continued.

A Company was started in the year 1854 to export salt to Calcutta, Malabar, and other places, and to supply Sind itself with salt at a cheap rate and monopolise the trade. The expectations of the Company that they would undersell manufactured salt in Sind and obtain a monopoly within the province were not realised, but they soon had a brisk export trade and were making considerable profits, when a question arose between the Sind authorities and the Bengal Government regarding payment at Calcutta of the drawback for excise duty paid at Karáchi on the quantity of salt exported. Payment of this drawback was claimed by the Sind authorities and refused by the Bengal Government; the salt-trade, while this discussion was going on, was suffering, for, weighted with an excise duty levied in Sind, *plus* the full duty in Bengal, it was unable to keep the market against Liverpool salt which just then ruled very low in Calcutta. The levy of both the export duty in Sind and the import duty in Bengal stopped the trade, and it ceased to be mentioned shortly after the Supreme Government had decided in favour of the Bengal authorities. Spasmodic efforts continued to be made to revive the export trade, but never successfully. A further effort is now being made by some European capitalists, and the Government of India have recently granted a monopoly for three years to a person under certain conditions for the removal of salt from the Sirganda deposit to Calcutta and to places outside the Bombay Presidency.

Salt intended for internal consumption in Sind continued untaxed until the year 1861, when the Government of India suggested that a duty should be levied on salt manufactured or imported into Sind, and, after some correspondence, the Government of India accepted a proposition made by Mr. Inverarity to "regulate the manufacture of salt under a system of licenses, the cost of which is to be determined by the Collector with reference to the probable outturn of the factories at a rate of excise fixed at 8 annas a maund, an excise duty at the same rate being levied on all salt imported into Sind from the neighbouring States." Though it accepted this proposal, the Government of India remarked that it was preferable, if practicable, that the correct principle of taxing every maund of salt manufactured should be asserted.

In June 1862 at all factories a duty of 8 annas per maund was levied, and the same duty was levied on salt imported into Sind from neighbouring States by sea or river, but no duty was levied on salt sent by land, it having paid the duty at the place from which it was imported.

In the Frontier District the duty at the manufactories was levied from 1863-64 up to 1866-67.

From 1867-68 to 1868-69 the Government duty levied at the factories was R0-8-6 per maund.

The "License System" was prolific in abuses and was superseded for a time by the "Farm System." This was found even more defective and injurious to the salt revenue, and the license system was, therefore, again resorted to; but a system under which manufacture was permitted at hundreds of small earth-salt factories scattered over all parts of the province was generally condemned, and Government approved proposals for the suppression of the manufacture of earth-salt, the working of the natural deposits, and the collection of stocks at central stores while their distribution was left to private enterprise. To put these measures in operation it became necessary to organise the Sind Salt Department in its present form to secure the full collection of the revenue and to watch and prevent illicit practices.

The duty was raised at the commencement of 1878 from 8 annas to R2-8-0, as in other parts of India; in 1882 it was reduced to R2 a maund, and in January 1888 it was again raised to R2-8 per maund.

There are four salt sources in Sind from which salt is now issued to the public, namely, the Maurypur works, the Saran and Dilyar deposits, and the Sukkur depôt. The Maurypur works, where the salt is manufactured by solar evaporation, were opened in the year 1878, and from these almost the whole province is supplied.

The works are situated on the Moach plain adjacent to the end of the harbour, from which by narrow channels the brine supply is obtained, reaching the storage wells by percolation. The works are surrounded by a water channel, inside which is a bund about five feet high. In the centre of the works are two platforms on which salt is stored in large stacks covered with matting.

The Saran and Dilyar deposits were opened in 1879 and 1882 respectively. The salt is formed in a lake or dhund from which, when the water dries, salt is excavated and stored. It is supplied to the inhabitants of the neighbouring villages of the Thar and Parkar districts.

The Sukkur depôt was opened on the 1st April 1884, salt being sent thither from the Maurypur works for the convenience of the people living in the Shikarpur District.

The State of Khairpur is supplied with salt from Sukkur and Dilyar duty-free, and all salt factories in Khairpur territory are closed.

All the salt works open at the time of the license and farming systems have been closed, and the revenue is protected by a preventive establishment who guard the natural salt formations in Sind as well as check illicit manufacture and smuggling from foreign territory.

III—*continued.*

SALT—*continued.*

Northern India.

The revenue was formerly collected through the agency of the Inland Customs Line, which was formed in 1843-44 and was extended at various times, until it reached from Torbela near Attock, on the Indus, to the Mahanadi in the Sambalpur District of the Central Provinces. It was 2,472 miles in length, and was manned by 10,496 officers and men. In consequence of the development of railway communication, 764 miles of this line were abolished in the Central Provinces in 1874-75, and eventually in 1878-79 the whole line from the western extremity of the Multan Division in the Panjab to the Central Provinces was removed. There remain now 543 miles, from the northern extremity of the Hazara District of the Panjab extending along the Indus to the junction of that river with the Sutlej, maintained for the purpose of preventing the low-taxed Kohat salt from crossing into the Panjab.

Irrespective of this line, in February 1870 the Inland Customs Department assumed charge of the Sambhar lake belonging conjointly to the States of Jaipur and Jodhpur, and in October 1878 they received charge of the salt sources at Pachbadra, Didwana, Phalodi, and Luni from the Jodhpur State.

The salt works at Sultanpur in the Delhi Division are also worked under the supervision of the Northern India Salt Revenue Department. It has further the charge of the salt mines in the salt range in the Panjab, and of a force designated the Internal Branch existing in Oudh, the North-West Provinces, the Panjab, Rajputana, Bihár, and in Calcutta, for the supervision of the saltpetre trade, for the levy of duty on salt educed from saltpetre, and for the control of the manufacture of other saline substances, such as sulphate of soda, carbonate of soda, etc.

The whole Inland Customs Department (now the Department of Salt Revenue in Northern India) is administered by the Commissioner of Northern India Salt Revenue, formerly responsible to the respective Local Governments and Administrations within whose jurisdictions the customs organisation was established, but now immediately under the Government of India.

The duties levied on the customs line were on salt imported and sugar exported.

The general rates of duty on salt were as follow:—

	PER MAUND. *On Rajputana Salts.* ₹
From 1843-44 to 1845-46	1-8 and 2
From 1846-47 to end of 1859	2
From beginning of 1860 to March 1861	2-8
From March 1861 to end of December 1877	3
From January 1878 to July 1878	2-12
From July 1878 to 9th March 1882	2-8
From 10th March 1882 to 18th January 1888	2
From 19th January 1888 to date	2-8

with the following exceptions: In the Sirsa Division of the Panjab section, the duty was 8 annas per maund for a part of 1843-44, when it was raised to ₹1 per maund, at which figure it remained until 1846-47, when the duty was equalised with that generally levied. In the Saugar Division of the Central Provinces section a rate of ₹1-8 per maund prevailed from the formation of the division in 1855-56 till the introduction of the general rate in 1859-60. In the Hoshungabad Division, also formed in 1855-56, ₹1 per maund was levied until a date in 1859-60, and thereafter ₹1-8 until the general rate was introduced in 1860-61.

The duty on Madras salt entering the Central Provinces was levied, from the outset until the abolition of the portion of the line across which it passed, at ₹1-8 per maund.

Bombay salt entering the Central Provinces paid from the outset at the rate of ₹1-8 per maund until 1st May 1874, when a mileage rate was introduced on all salt travelling by rail from Bombay, the object of the differential rate being to level up the duty to a uniform rate by the time it reached Jubbulpore, where it came in contact with Northern India salt paying ₹3 duty. This mileage rate was abolished in 1878, when the salt duty was made uniform throughout India (except in Bengal and British Burma).

Salt excavated in the Sind Saugor Doab and the Kalabagh mines was subject to duty as follows:—

	PER MAUND. ₹
From 1849-50 to April 1860	2
From April 1860 to September 1861	2-2
From September 1861 to December 1877	3
From January 1878 to July 1878	2-12
From July 1878 to March 1882	2-8
From 10th March 1882 to 18th January 1888	2
From 19th January 1888 to date	2-8

Salt excavated at the Kohat mines was subject to a duty of 4 annas, 3 annas, and 2 annas per maund. A uniform rate of 8 annas per Lahori maund at all the mines was introduced with effect from the 7th July 1883.

Salt educed in the process of manufacturing saltpetre has always been subject to the duty prevailing in Northern India.

III—*continued.*

SALT—*continued.*

Lower Burma.

In 1862 the tax on salt was levied upon pots employed in the manufacture at the following rates :—

For each earthen pot holding about 6 gallons, 8 annas; each iron cauldron, ₹ 5 (or at these rates, according to capacity).

In 1867 the rates were as follows :—

In the Pegu Division—

I.—Rangoon District—

Each earthen pot holding about 6 gallons, 12 annas; each iron cauldron, ₹ 5 (or at these rates, according to capacity).

II.—Bassein District—

Each earthen pot holding about 6 gallons, 8 annas; each iron cauldron, ₹ 5 (or at these rates, according to capacity).

III.—Myanaung (now Henzada and Tharawaddy) District—

Each earthen pot, if used, 2 annas; each iron cauldron, if used, Re. 1.

In the Tenasserim Division, except the Martaban (now Amherst and Shwegyin) District—

Each earthen pot producing on the average 1 viss of salt at the boiling, 8 annas; each iron cauldron, ₹ 2-8-0 (or at these rates, according to capacity).

In the Martaban (now Amherst and Shwegyin) District—

Each earthen pot, 6 annas.

In the Arakan Division—

Each earthen pot, 8 annas.

Between 1879 and 1882 the salt excise revenue was levied under the authority of the Lower Burma Land and Revenue Act, 1876, section 39, of which authorised the Chief Commissioner to make rules—

(*a*) for granting licenses to manufacture salt;

(*b*) for imposing on all salt manufactured a duty at a rate not exceeding the rate of customs duty for the time payable on salt imported by sea;

(*c*) for compounding with any holder of a license for the payment by him of an annual sum assessed upon the plant employed by him in lieu of the duty which would be payable to him on the salt produced with the aid of such plant.

Rules made under this section in 1879 provided—

(i) that on all salt manufactured in British Burma an excise duty should be levied at the rate at which customs duty was for the time being levied on salt imported by sea;

(ii) that in lieu of the said duty an annual sum should be assessed upon the pots or cauldrons used in the manufacture, at a rate not exceeding Re. 1 per pot and ₹ 5 per cauldron.

The rates in force before the passing of the Burma Land and Revenue Act were still maintained.

Section 39 (*b*) of the Burma Land and Revenue Act, 1876, was repealed by Act XII of 1882, and Finance and Commerce Department Notification No. 751, dated the 28th April 1882, provided that the excise duty levied on salt manufactured in British Burma should be 3 annas a maund. The practice under which this excise duty was compounded for an annual sum calculated on the implements of manufacture was still maintained, and no change was made in the rates of composition. Finance and Commerce Department Notification No. 343, dated the 19th January 1888, raised the duty on salt in Lower Burma to Re. 1 a maund. This increase rendered a proportional increase necessary in the rates of composition duty. Successive notifications were accordingly published in 1888, 1889, and 1890, under which the composition duty was gradually raised until it reached the amount which was believed to represent the sum which would have been obtained if an excise duty had been directly levied. The composition duty now levied under the Notification of 1890 is as follows :—

District.	Rate per earthen pot.	Rate per iron cauldron.	
	₹	₹	
Akyab	5	*Nil.*	
Kyaukpyu	10	200	
Sandoway	5	25	
Bassein	20	*Nil.*	
Thôngwa	25	100	
Hanthawadi	25	100	
Pegu	*Nil.*	40	
Shwegyin	*5	20	
Amherst	5	20	Earth-salt works.
	20	75	Sea-brine factories.
Tavoy	5	50	
Mergui	*Nil.*	50	

* Including small iron cauldrons of 2 and 2½ gallons capacity.

III—*concluded.*

SALT—*concluded.*

Lower Burma—continued.

The regulations for the manufacture of salt are under revision. From the 1st July 1895, *ad interim* rates as under, have been adopted :—

District.	Description of vessel allowed.	Capacity not exceeding gallons.	Rate of composition duty for six months, 1st July to 31st December 1895.
			₹
Akyab ...	Iron cauldron	5	10

	Earthen pot	7	10
Amherst (Earth salt)	Iron cauldron	10	15
	Earthen pot	7	4
Tavoy ...	Iron cauldron	10	40
	Earthen pot	5	4
Mergui ...	Iron cauldron	10	25

Upper Burma.

In Upper Burma before annexation the manufacture of salt was carried on in various parts of the country, and a certain amount of revenue was derived from it by taxing the implements of manufacture. In 1888, after information had been gathered as to the nature and extent of the industry, a duty of ₹ 5 on each pan used in manufacture was imposed in all districts in which the manufacture of salt had previously been untaxed, and of ₹ 10 where it had been customary to pay a tax. At the same time manufacturers of salt were required to take out licenses. Further enquiries were made in 1889 and 1890 concerning the salt industry in Upper Burma, and in 1889* the same duty was imposed on salt imported into or manufactured in Upper as in Lower Burma, namely, Re. 1 a maund. In 1890 the following rates were fixed as the duty payable in lieu of the excise duty of Re. 1 a maund, which they were believed to represent as nearly as possible. At the same time the manufacture of salt was prohibited except in the districts for which rates were fixed and in the Upper Chindwin District:—

* Finance and Commerce Department Notification No. 2985, dated 14th June 1889.

District.	Rates.
Minbu	Per earthen pot or bowl-shaped iron cauldron of from 2 to 2½ gallons capacity, ₹ 5; per bowl-shaped iron cauldron, 6 gallons or upwards in capacity, ₹ 10.
Pakôkku	
Magwe*	
Myingyan*	
Yamèthin	
Meiktila	
Lower Chindwin† ...	Per filter-bed or "sapaing," ₹ 20.
	Private Wells.
Sagaing‡	Per bowl-shaped iron cauldron of from 6 to 7 gallons capacity, used for boiling down brine obtained by the lixiviation of natural saline efflorescence, ₹ 10.
Shwebo	Per bowl-shaped iron cauldron of from 6 to 7 gallons capacity, used for boiling down brine obtained from brine wells, ₹ 25.
Katha	At the village of Kangyi, ₹ 10.§ At the villages of Sagyin, Hetin, and Haungtôn per bowl-shaped iron cauldron of from 6 to 7 gallons capacity, ₹ 20. (*a*).
	Royal Wells.
Shwebo	The equivalent in cash of the royal share of the salt manufactured from these wells. (*b*).

Duty on Salt imported by Sea into Burma.

No information is available as regards the duty on salt imported before 1855. Under the provisions of section II, Act XXX of 1854, beginning from the 1st day of January 1855, the maximum duty fixed on salt imported by sea into any part of the Arakan, Pegu, Martaban, and Tenasserim provinces was 8 annas a maund, but it is not known whether the maximum rate was ever imposed. The Act also provided for an export duty of 4 annas a maund on salt exported beyond the northern frontier of Pegu by the Irrawaddy or the river Sittang. By Act XVI of 1875, the Indian Tariff, the rate of import duty on salt imported into British Burma was fixed at 3 annas per maund of 3,200 tolas, subsequently altered by Act XI of 1882 to 82⅔lbs avoirdupois. This rate was raised to Re. 1 per maund of 82⅔lbs avoirdupois, with effect from the 19th January 1888, and duty has since been levied at this rate.

* From 1st July 1893, the rate per cauldron of 6 gallons or upwards in capacity was reduced to ₹ 2-8-0.
† Rate reduced to ₹ 10 per "sapaing."
‡ Rate reduced to ₹ 5 at Yegya, and Rs. 10 at Sadoung.
§ Kangyi has since been transferred to Shwebo district.
(*a*) Pinlela has since been added, consequent on the absorption of the Dantho State.
(*b*) Now fixed at ₹ 25.

IV.

OPIUM.

[TABLES 1 TO 17, PAGES 56 TO 85.]

BENGAL OPIUM.

The tract in which the poppy is cultivated in Bengal comprises nine districts in the west of the Lower Provinces, situated in the divisions of Patna and Bhágalpur, and twenty-nine districts in the North-Western Provinces and Oudh. The former districts are, in respect of opium, under the control of the Opium Agent, Bihár, whose head-quarters are at Patna. The latter are under the Opium Agent, Benares, whose head-quarters are at Ghazipur. At each of these places there is a Government factory at which the crude opium is manufactured into the form in which it passes into consumption. Subject to the immediate supervision of the Opium Agents and their respective staffs, the cultivation of the poppy and the manufacture of opium are regulated by Act XIII of 1857, under the general control of the Lieutenant-Governor of Bengal and the Board of Revenue, Lower Provinces. The possession, transport, import and export of opium are regulated by rules framed under section 5, Act I of 1878 (the Indian Opium Act).

Cultivation is permitted only under licenses granted under the authority of the Opium Agent. The area to be cultivated is fixed by the license, and the cultivator is bound to sell the whole of his outturn to the Opium Department at the rate fixed by Government. This rate was, from 1881-82, ₹5 per ser of opium of seventy degrees consistency, but was raised in 1894-95 to ₹6 per ser. Advances according to fixed rates are given to the licensed cultivators on account of their crops, at the time of executing the agreement, and from time to time (though ordinarily not more than two advances are given), until final delivery. Interest is not charged on these advances. In March or April the opium is made over to the Opium officers and weighed and tested, and as soon as possible afterwards each cultivator's accounts are adjusted, and the balance due is paid to him.

The total area under cultivation during each of the last five years and the outturn according to the weighments were as follows :—

OPIUM YEAR, 1ST SEPTEMBER TO 31ST AUGUST.	AREA IN ACRES.			OUTTURN IN MAUNDS.		
	Bihár Agency.	Benares Agency.	Total.	Bihár Agency.	Benares Agency.	Total.
1890-91 ...	254,975	246,744	501,719	38,726	44,373	83,099
1891-92 ...	234,741	228,923	463,664	31,934	38,490	70,424
1892-93 ...	241,400	213,143	454,543	40,339	42,970	83,309
1893-94 ...	237,321	220,881	458,202	26,116	35,236	61,352
1894-95 ...	231,459	281,042	512,501	32,135	36,949	69,084

After weighment the opium is taken to the Government factories at Patna and Ghazipur, where it is manufactured. The manufactured product is turned out in two* forms :—

(*a*) that which is intended for export to China and the Straits Settlements, technically known as "provision" opium, and

(*b*) that which is intended for consumption in India, technically known as "excise" opium.

Provision opium is made up in the form of balls or cakes, each weighing 3·5 lbs., and is packed in chests, each chest containing forty cakes, weighing 140 lbs.

Excise opium is made up in cubical packets, each weighing one ser.

The outturn in each factory of each kind of opium during the last five years has been as follows :—

OPIUM YEAR, 1ST SEPTEMBER TO 31ST AUGUST.	BIHÁR.			BENARES.			TOTAL.		
	Provision.	Excise.		Provision.	Excise.		Provision.	Excise.	
	Chests.	Mds.	Srs.	Chests.	Mds.	Srs.	Chests.	Mds.	Srs.
1890-91 ...	21,834	5,029	20	22,688	3,573	0	44,522	8,602	20
1891-92 ...	20,846	5,097	20	12,833	3,936	33	33,679	9,034	13
1892-93 ...	19,927	1,455	26	20,579	2,459	24	40,506	3,915	10
1893-94 ...	16,785	2,335	33	16,544	2,881	0	33,329	5,216	33
1894-95 ...	18,538	1,966	0	17,415	1,410	0	35,953	3,376	0

* A small amount of opium for medical purposes is also made at Patna, and at Ghazipur morphia and codeia are made from opium not fit for other purposes.

IV—*continued.*

BENGAL OPIUM—*continued.*

The estimated cost of a chest of provision opium, including all charges whatever, during each of the last five years, is shown in the following table* :—

	Cost of crude opium, leaves, etc. (payments to cultivators).			Establishment and factory charges.			Calcutta charges.			Interest on advances.			TOTAL.		
	R	a.	p.	R	a.	p.	R	a.	p.	R	a.	p.	R	a.	p.
1889-90 ...	364	1	6	44	2	6½	0	7	6	22	15	10	431	11	4⅓
1890-91 ...	358	13	10½	46	4	8½	0	8	3	17	11	11	423	6	9
1891-92 ...	371	1	9	57	1	2½	0	9	7	19	13	9⅓	448	10	4
1892-93 ...	359	8	0	42	13	0	0	11	2	15	1	6	418	1	8
1893-94 ...	366	11	3	45	9	6	0	11	2	12	15	5	425	15	4

Provision opium is sold by public auction in Calcutta. About June of each year, a notification is published stating the number of chests from each Agency which will be put up to sale in each month of the following calendar year, and the quantities so notified are not altered without three months' notice. The quantities depend on the amount manufactured and the reserve stock. The following statement shows, for each of the last five years, the quantities sold, the average price realised per chest, the sale proceeds, and the reserve stock in hand at the end of the year.

YEAR.	Quantity of provision opium sold.	Sale proceeds.	Average price realised.	Reserve stock on 31st December in each year.
	Chests.	Rx.	R	Chests.
1890-91 ...	57,000	5,912,896	1,037⅛	1890 ... 31,010
1891-92 ...	56,250	5,949,659	1,057$\frac{23}{32}$	1891 ... 18,770
1892-93 ...	48,852	6,093,265	1,247¼	1892 ... 11,839
1893-94 ...	43,353	4,808,376	1,109¼	1893 ... 1,847
1894-95 ...	39,780	5,321,390	1,337$\frac{45}{64}$	1894 ... 26
				1895 ... ...

The duty levied by the Government on each chest may be taken to be the difference between the average price realised each year, and the average cost in the same year, as shown in the preceding tables. For example, the duty in the year 1893-94 may be taken as about R 683$\frac{7}{24}$ a chest.

Under a convention, which dates from 1815, the French Government has the right to purchase not more than 300 chests of opium each year, at the average price realised for the rest of the opium at the sales. This right has been commuted for a money payment which at present amounts to R5,000 a year, under an agreement which will remain in force until the 31st December 1898.

Excise opium is distributed from the factories, or from the Calcutta warehouse, to the Government treasuries, whence it is issued on payment to licensed vendors. For purposes of account, a sum of R7¼ (raised from the 1st July 1895 to R8½) per ser out of the proceeds of this opium is credited under the head of Opium as representing the cost price. The remainder of the proceeds is credited under Excise.

MALWA OPIUM.

Malwa opium is produced in the Baroda State, and in the undermentioned Native States in the Rajputana and Central India Agencies. It is not produced in British territory, except to a limited extent in the small tract of Ajmere-Merwara.

CENTRAL INDIA AGENCY.

Indore Residency ...	Indore, Dewas, Bagli.
Gwalior Residency ...	Gwalior.
Bhopal Agency ...	Bhopal, Rajgarh, Narsingarh, Khilchipur, Maksudangarh, Qurwai, Muhammadgarh, Basoda, Sutalia, Agra Barkhera, Kamalpur, Dhabla Dhir, Dhabla Ghosi, Daria Kheri, Rajapur Kheri, Jabria Bhil, Tappa, Pataria, Piplianagar, Khajuri, Dugri, Sadan Kheri, Hirapur, Pathari.
Bundelkhand Agency ...	Datia, Panna, Ajaigarh, Baoni, Chhatarpur, Baraundha, Paldeo, Pahra, Taraon, Gawrihar, Charkhari, Bijawar, Safila.
Baghelkhand Agency ...	Rewa, Maihar, Nagode.
Western Malwa Agency ...	Jaora, Ratlam, Sailana, Sitamau, Piploda, Panth Piploda.
Bhopawar Agency ...	Dhar, Jhabua, Barwani, Ali Rajpur, Jobat, Bagode, Nimkhera, Kalibaori, Rajgarh, Bharupura, Chiktiabar, Manpur (British), Jamnia, Garhi, Kothide.
Goona Agency ...	Raghogarh, Parone, Gurra, Umri, Bhadaura, Dharnaoda, Sirsi.

RAJPUTANA.

Meywar ...	Meywar, Banswara, Pertabgarh, Dungarpur.
Western Rajputana States ...	Marwar, Jaisulmer, Sirohi, Jaipur, Kishengarh, Bundi, Tonk, Aligarh, Nimbakhera, Chabra, Parowa Sironj, Shahpura, Kotah, Jhallawar, Bikanir, Alwar.
Eastern States ...	Bhartpur, Kerauli, Dholpur.

* The cost differs slightly in the two factories. The figures represent the average of a chest from each factory without regard to the total outturn of each.

IV—*continued.*

MALWA OPIUM—*continued.*

In these States the British Government has no concern with the cultivation of the poppy or the manufacture of opium. Nor has it any concern with the export of the opium, except that it levies a duty on opium which passes into or through British territory, either for local consumption in British India or for export by sea to China and other countries beyond the continent of India. It is this duty, commonly called pass-duty, which constitutes the British revenue from Malwa opium.

Government is enabled to raise this revenue because the States in which the opium is produced have no access to the sea, except through British territory. The import of the opium into, or transport through, British territory is prohibited except under passes granted under the authority of the Opium Agents,* and on payment of the pass-duty.

* The Agent to the Governor-General, Central India, and the Commissioner of Ajmer-Merwara are *ex-officio* Opium Agents for their respective charges.

Passes are granted after weighment of the opium at scales maintained by the Opium Agents, the three principal scales being maintained at Indore in Central India, at Ajmere in Rajputana, and at Ahmadabad in the Bombay Presidency. The last was established provisionally in 1857 to meet the emergency arising from the disturbed state of the country at that time, and is now used for opium from Baroda and the small State of Dungarpur in Rajputana. There are also subsidiary scales at some other convenient places.

The poppy is sown in Malwa in November: the plants are in flower in the beginning of February, and by the end of March the whole of the opium is collected by the cultivators, and is ready for sale. The village bankers and others who get possession of the raw opium, usually retain it until the end of April, and during May and June it is bought by the large dealers, who make it up into balls of about twelve ounces each, and expose it in storehouses to dry for the next two or three months, after which it is ready for the scales. It is usually ready for export by September; but as considerable dryage takes place during the transport of new opium to Bombay, it is commonly kept back until October. A chest of Malwa opium contains 140lbs. in weight, to which an allowance of four ounces is added for leaf and dust, making a total of 140¼lbs. The opium is usually packed in half-chests for convenience of carriage.

The rates of pass-duty levied since 1862 on opium weighed for export by sea have been as follows:—

From	Per chest.
	R
1st October 1862 ...	600
16th July 1877 ...	675 if weighed at Ajmere 650 if weighed elsewhere
15th September 1879...	725 if weighed at Ajmere 700 if weighed elsewhere
28th June 1882 ...	675 if weighed at Ajmere 650 if weighed elsewhere
5th July 1890 ...	625 if weighed at Ajmere 600 if weighed elsewhere
11th December 1894 ...	675 if weighed at Ajmere 650 if weighed elsewhere

Opium which has been weighed and passed for export by sea from Bombay may, after arrival at Bombay, be diverted for local consumption on payment of a higher rate of pass-duty of R725 per chest when the pass was granted at Ajmere, and of R700 per chest when the pass was granted elsewhere.

When opium is weighed directly for local consumption and not for export by sea, the higher duty is charged at once. The reason why a higher rate of pass-duty is levied at Ajmere is that, as these scales are situated in British territory, the opium weighed there is not subject to the dues levied by the Native States.

The pass-duty on the opium weighed for export is paid by *hundis* or bills payable in Bombay. After weighment and delivery of the *hundi*, the opium is transported by railway to Bombay under cover of the pass, the cost of transit being borne by the owner. In Bombay it is received by the Commissioner of Customs and Opium, who is responsible for seeing that it corresponds with the covering pass, and who detains it until the *hundi* has been cashed. The opium is then warehoused, and is at the disposal of the owner for export or for local consumption, subject to the provisions of the Opium Act and the Bombay Opium Rules.

PANJAB.

The cultivation of the poppy is permitted (under license for each crop) throughout the Panjab, except in the districts of Delhi, Gurgaon, Rohtak, Hissar, the greater part of Karnal, and part of Ferozpur, where it has long been prohibited. The total area under poppy has usually been about 10,000 acres. There are, however, only five really opium-producing districts—Ambala, Simla, Kangra, Shahpur, and Dera Ghazi Khan. In the remaining districts in which the plant is grown, opium is either not extracted, or, if extracted, only a small quantity becomes available for sale by licensed vendors, the rest being surreptitiously disposed of; and the produce is consumed in the shape of a drink called *post* made from poppy-heads, either illicitly, or after passing through the hands of licensed vendors.

An acreage duty is levied on the cultivation of the poppy, at the rate of R2 per acre in the five chief opium producing districts, and in Gujrat, which adjoins Shahpur; and at the rate of R4 per acre in the rest of the province

IV—*concluded.*

PANJAB—*concluded.*

A cultivator is not permitted to consume any part of the produce of his crop himself. He is bound either to dispose of it standing to a license-holder, who extracts the opium and sells it to a licensed wholesale or retail vendor, or to extract the opium himself and dispose of it, or of the produce, in the shape of poppy-heads, to a licensed retail or wholesale vendor.

Opium produced in the Hill States, in Kashmir, and in independent territory west of the Indus, is imported by wholesale vendors, and is subject to no import duty.

BARODA.

The cultivation of the poppy and the manufacture of opium are permitted in the Baroda State, under a State monopoly, for consumption in the State and for export to China. The State has undertaken to assimilate its opium retail system and selling prices to those for the time being in force in adjoining British districts, and to prevent the introduction of Baroda opium into British territory and into the territories of adjoining Native States.

AJMERE-MERWARA.

In these two districts, which form a small tract of British territory in the midst of the Native States constituting the Rajputana Agency, the cultivation of the poppy and the manufacture and sale of opium are permitted without restriction, except in the three municipalities of Ajmere, Beawar, and Kekri, and the cantonment of Nasirabad. This course is rendered necessary in consequence of the impossibility of preventing smuggling from the surrounding country. The poppy is cultivated chiefly in Merwara, which is a narrow strip of hill country surrounded by opium-growing Native States. The population is much addicted to the use of opium, and any rule restricting its use would be habitually infringed.

In the three municipalities and in the cantonment of Nasirabad, a license is required for the cultivation of the poppy, or the manufacture or sale of opium.

BURMA.

Opium is produced in the Shan States beyond British limits, and in Upper Burma in the Kachin villages of the districts of Katha, Bamo, and Upper Chindwin. On the drug produced in British territory an excise duty is levied at the rate of 8 annas for each quarter of a *pé* (one *pé* = 1·75 of an acre) or fraction thereof, cultivated with poppy. The importation of opium from the Shan States or from China by land into Upper Burma is permitted on payment of a duty of R15 per *viss* (or 3·65 lbs. avoirdupois). Neither of these classes of opium may be exported to Lower Burma. Shan or foreign travellers or horse-dealers may, however, import into any part of Burma for their personal use, without payment of duty, Shan or foreign opium in quantities not exceeding 5 tolas for each traveller or for each horse.

V

EXCISE.

[Tables 1 to 17, Pages 86 to 121.]

During the ten years ending with 1894-95 the net receipts from the Excise have increased from Rx. 3,856,607 to Rx. 5,276,733, the increase being at the rate of nearly 37 per cent. The receipts from opium (consumed in India, not exported) rose from Rx. 852,448 to Rx. 961,526, being at the rate of under 13 per cent, which is a little more than the rate of increment of the population. The chief increase occurred in the receipts from liquors and from drugs other than opium, which rose from Rx. 3,004,159 to Rx. 4,315,207, the increase being at the rate of 43·6 per cent. This large increase is due much more to increasingly effective control of the excise administration, tending to the restriction of illicit consumption and to the imposition of progressively higher rates of duty, than to the expansion of consumption.

The revenue from liquors in 1894-95 was distributed in the proportions noted below between the more important provinces in which liquor is most largely consumed:

	Rx.	Proportion of whole liquor revenue.
Madras Presidency	1,281,401	= 31·9 per cent.
Bombay „	951,967	= 23·7 „
Bengal	766,056	= 19 „
North-Western Provinces and Oudh	399,411	= 9·9 „

As much as 84·5 per cent of the revenue is obtained from these provinces, much the largest share relatively and absolutely being contributed by Bombay and Madras.

V—*continued.*

EXCISE—*continued.*

The revenue from drugs (excluding opium) has risen in the ten years from Rx. 392,144 to Rx. 467,413, being at the rate of 19·1 per cent.

The incidence of excise taxation per head of the population (according to the census of 1891) was in 1894-95.

	R	a.	p.
Madras Presidency	0	6	1·67
Bombay „	0	9	4·1
Bengal	0	2	9·83
North-Western Provinces and Oudh	0	1	11·1
Burma	0	7	10·29
Assam	0	7	10·52
Central Provinces	0	4	1·42

The incidence per head in all India (British) was:

	R	a.	p.
1893-94 ...	0	3	8·98
1894-95 ...	0	3	9·98

According to the statistics 21·63 per cent of the excise revenue of Bengal was obtained in Calcutta. The cities of Bombay and Madras yielded 7·56 per cent and 9·04 per cent respectively of the revenue of those provinces. The capital cities of the other provinces do not approach these percentages. The revenue falls in these three cities at the following incidence per head of population (census of 1891) :—

	R	a.	p.
Calcutta and suburbs	3	5	8
Bombay, city and island	1	0	2·53
Madras and suburbs	2	11	8·28

VI.

CUSTOMS REVENUE.

[TABLES 1 TO 7, PAGES 122 TO 147.]

These tables give a general view of the duties levied under the Tariff Acts since 1859, and contain figures of the amount of duty collected since 1884-85. From 1859 to 1864 the general rate of import duty was 10 per cent; from 1864 to 1875, 7½ per cent; and from 1875 to 1882, 5 per cent. In 1882 the import duties were repealed, the only articles left on the tariff schedule being liquors, arms, opium (the latter giving a nominal revenue, as the duty is meant to be prohibitory), and salt. The last-named article is separately treated (see Part III) and is excluded from these figures. Between 1882 and 1894 the following changes were made in the tariff: the duty on liquors was increased in 1887 and in 1890 and on salt in 1888; a duty was imposed on petroleum in 1888, and on dry and wet salt-fish imported into Burma from any place beyond the limits of British India in 1893. In March 1894 the tariff was re-established much as it had stood in 1875: imports generally were subjected to duty at the rate of 5 per cent, but the duty on most classes of iron and steel was fixed at 1 per cent, and a few articles were exempt from duty, the most important being food-grains, machinery, railway material, coal, and cotton yarn and manufactured goods. In December 1894 cotton yarn and manufactured goods were made dutiable at the general rate of import duty (5 per cent). In February 1896 cotton yarn and cotton sewing thread were exempted from duty, and the rate of duty on all other cotton goods was reduced to 3½ per cent.

The general rate of export duty from 1859 to 1867 was 3 per cent. Many articles were subject to taxation in 1859, but the list was gradually reduced until, in 1867, it consisted of cotton manufactures, indigo, rice, wheat, and other grains, tanned and dressed hides and skins, lac, oils, seeds, spices, and shawls. The list was then further gradually reduced, until finally rice alone remained in 1882, this being the only dutiable export at present, besides rice-flour, which has been subject to duty from August 1893.

The revenue from the import and export duties in the last five years has been as follows:—

	Import. Rx.	Export. Rx.
1890-91 ...	794,451	921,039
1891-92 ...	796,459	879,213
1892-93 ...	844,170	741,194
1893-94 ...	988,662	660,477
1894-95 ...	2,895,426	903,488

VIII.

INCOME TAX.

[TABLES 1 TO 11, PAGES 170 TO 199.]

The Income Tax Act, II of 1886, came into operation from the 1st April 1886, the rate at which the tax is assessed having remained unchanged from the beginning. The Act took the place of various Acts under which annual licenses were required for the exercise of trades, dealings, or industries. Those Acts were in force in the provinces of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Panjab; and in the last year of their existence the net revenue obtained from the taxation imposed under them amounted to Rx. 472,800. In the first year of the operation of the Income Tax Act the net revenue realised was Rx. 1,277,510.

The proceeds of the tax have increased steadily from year to year, the gross collections having risen from Rx. 1,369,180 in 1886-87 to Rx. 1,786,016 in 1894-95. The increase amounts to 30·44 per cent, being on an average over 3 per cent annually.

The annual gross collections were distributed as follows under each of the classes specified in the schedule of the Act during 1894-95:

I, Salaries and Pensions	... ...	29·80 per cent.
II, Profits of Companies	... ...	5·93 „
III, Interest on Securities	... ...	5·85 „
IV, Other sources of Income	...	58·42 „

The average annual collections in the nine years 1886-87 to 1894-95 are given below:—

	Rx.		Rx.
Bengal	396,455	Central Provinces	35,772
Bombay	347,962	Assam	22,406
North-Western Provinces and Oudh ...	222,587	Ajmere-Merwara	9,533
Madras	169,417	Hyderabad	4,390
Panjab	112,660	Bangalore	3,108
Burma	63,677	Coorg	1,281

In Bengal, Bombay, and Madras a large proportion of the tax is collected in the Presidency towns, as will be seen from the figures appended for 1894-95:—

	Rx.	
Bengal	440,055	
Calcutta	189,907	
Proportion in Calcutta ...		43·15 per cent.
Presidency of Bombay	383,567	
City and Island of Bombay ...	187,545	
Proportion in Bombay ...		48·89 per cent.
Presidency of Madras	216,093	
Madras City	46,681	
Proportion in Madras ...		21·60 per cent.

The incidence of the tax per head of population is highest in Bombay and Burma, the commercial communities of the cities of Bombay and Rangoon contributing a relatively high proportion of the provincial collections; and it is lowest in the Central Provinces.

The Act exempts from the tax persons with an annual income of less than ₹500, who form the bulk of the population. The figures in the following table give the number of the taxable classes of the population (that is, the number of assessees) in 1894-95, and the incidence of the tax on them in each province:—

	Number of assessees.	Final demand. Rx.	Incidence per assessee. ₹
Bengal	115,583	448,728	38·82
Bombay	88,475	373,980	42·27
Madras	75,237	218,751	29·07
North-Western Provinces and Oudh ...	76,535	237,406	31·02
Panjab	47,445	128,155	27·01
Central Provinces	10,868	38,283	35·22
Assam	8,408	28,012	33·31
Burma	18,353	76,054	41·44
Ajmere-Merwara	2,044	6,988	34·19
Coorg	413	1,517	36·73
Bangalore	1,407	5,185	36·85
Hyderabad	831	5,410	65·10
Port Blair	104	695	66·83

The whole number of persons assessed to the tax in 1894-95 was only 445,703, and the average incidence on them of the total final demand was 35·21.

VIII—*continued.*

INCOME TAX—*continued.*

Under Part II of the Schedule of the Act (Profits of Companies) the largest sums are obtained from railway and cotton-spinning and weaving companies, banking companies also contributing a considerable share. Under Part IV, the largest amount of the tax is realised from persons engaged in money lending and changing.

The following figures compare the collections from companies in 1886-87 and 1894-95:—

	1886-87. Rx.	1894-95. Rx.
Railway	37,180	27,282
Cotton-spinning and weaving ...	5,532	12,556
Banking	12,113	15,379
Shipping	1,085	6,919
Trading	2,347	7,217
Pressing	2,147	1,790
Jute and hemp	556	8,839
Insurance	3,192	4,108
Others	10,468	20,230

A similar comparison for the classes under Part IV of the Schedule (individual incomes) brings out the following figures for the more important classes:—

	1886-87. Rx.	1894-95. Rx.
Professions—		
Barristers, etc.	35,543	37,562
Other legal practitioners ...	6,960	14,286
Religion	5,148	6,976
Medicine	5,391	7,992
Commerce—		
Money lending and changing ...	241,255	305,584
General merchants	80,579	87,767
Piece goods „	43,702	54,100
Grain „	31,859	56,121
Bankers	43,863	47,757
Trade—		
Dealers in agricultural produce ...	28,592	27,269
„ food	18,206	22,765
„ dress	6,431	11,793
Manufactures—		
Sugar	17,432	22,169
Cotton goods	3,634	7,645
Property—		
House owners	40,496	49,454
Taxable estate holders	489	19,317
Newspaper proprietors	662	829
Printing press „	1,261	2,132

Below are shewn the collections of the tax classified according to the amount of income. Under classes I to VI (₹500 to ₹2,000), the total collections are a little more than half the amount realised under classes VII to XV (₹2,000 and upwards):—

Province.	Classes I to VI, Rx. 50—200.	Class VII, Rx. 200—250.	Class VIII, Rx. 250—500.	Class IX, Rx. 500—1,000.	Class X, Rx. 1,000—2,000.	Class XI, Rx. 2,000—3,000.	Class XII, Rx. 3,000—4,000.	Class XIII, Rx. 4,000—5,000.	Class XIV, Rx. 5,000—10,000.	Class XV, Rx. 10,000 and more.
	Rx.	*Rx.*	*Rx.*	*Rx.*	*Rx.*	*Rx.*	*Rx.*	*Rx.*	*Rx.*	*Rx.*

IX.

PAPER CURRENCY.

[Tables 1 to 11, Pages 200 to 217.]

Under Acts VI of 1839, III of 1840, and IX of 1843, the Banks of Bengal, Bombay, and Madras were authorised to issue notes payable on demand; the issue of the notes was practically limited to the Presidency towns. These Acts were repealed, with effect from the 1st March 1862, by Act XIX of 1861, providing for the issue of a paper currency through a Government Department of Public Issue, either in connection with the Mints or otherwise, by means of notes of the Government of India payable to bearer on demand.

Act XIX of 1861.

This Act was superseded, first by Act III of 1871 and finally by Act XX of 1882, which, as amended by Acts XV of 1890, and VIII of 1893, is now in force. By the Act of 1882, the system of Paper Currency was extended to Burma, which province had not been included in the former arrangements.

Act XX of 1882.

By Act XV of 1890, the maximum limit of that portion of the reserve held against the note circulation which may be invested in Government securities was raised from sixty millions to eighty millions of rupees.

Act XV of 1890.

Act VIII of 1893 gave effect to the decision of the Government of India (1) to close the Indian mints to the unrestricted coinage of silver for the public, and (2) to issue currency notes in exchange for gold coin or bullion to any amount.

Act VIII of 1893.

The principal provisions of the Currency Acts, and of the orders issued by the Government in exercise of the power given by those Acts, are summarised in the subjoined paragraphs.

The Department of Paper Currency.—The function of this department is to issue, without any limits, promissory notes (called currency notes) of the Government of India payable to the bearer on demand, of the following denominations, namely, ₹5, 10, 20, 50, 100, 500, 1,000, and 10,000, the issue being made in exchange for silver coin from every Paper Currency office, and for gold bullion and gold coin from the head offices in Calcutta and Bombay, on the requisition of the Comptroller General.

The following is the arrangement of the circles and offices of issue of the notes, and the territories within which the notes of each circle or sub-circle are legal tender :—

Head Offices of Issue.	Subordinate Offices of Issue.	Officers in charge.	Circles or geographical limits within which notes are legal tender.
Calcutta ...	...	Head Commissioner of Paper Currency (Comptroller General).	All the territory under the Lieutenant-Governor of Bengal and the Chief Commissioner of Assam.
	Allahabad ...	Deputy Commissioner of Paper Currency.	The territory under the Lieutenant-Governor, North-Western Provinces, and Chief Commissioner of Oudh.
	Lahore ...	Deputy Commissioner of Paper Currency.	The territory under the Lieutenant-Governor of the Panjab.
Madras ...	...	Commissioner of Paper Currency (Accountant General, Madras).	All the districts in the Madras Presidency not particularised under Calicut.
	Calicut ...	Deputy Commissioner of Paper Currency.	The districts of Malabar, South Canara, Coimbatore, Nilgiris, and Coorg.
Bombay ...	...	Commissioner of Paper Currency (Accountant General, Bombay).	All the districts of the Presidency of Bombay proper and the Central Provinces.
	Karachi ...	Deputy Commissioner of Paper Currency.	The Province of Sind.
Rangoon ...	...	Commissioner of Paper Currency (Comptroller, Burma).	All the territory under the Chief Commissioner of Burma (except the Shan States).

The Head Commissioner of Paper Currency is at the head of the Department.

Supply and Issue of Currency Notes.—Currency notes are supplied by the Secretary of State through the Bank of England to the several circles on an indent from the Head Commissioner. The Head Commissioner or Commissioners supply Deputy Commissioners and Currency Agents with such notes as they require for the purposes of the Paper Currency Act. Every such note bears upon it the name of the town from which it is issued and the impressed signature of the Head Commissioner or of a Commissioner.

The officers in charge of the several circles of issue are authorised to issue, from the office or offices established in their respective circles, currency notes in exchange for the amount thereof (1) in current silver coin of the Government of India or made under the Native Coinage Act, IX of 1876, and (2) on the requisition of the Comptroller General, from the head offices at Calcutta and Bombay in gold coin or gold bullion at the rate of one Government rupee for 7·53344 grains troy of fine gold. The issue of currency notes in Calcutta and Bombay, for gold coin or gold bullion at the rate of one Government rupee for 1*s.* 4*d.* was authorised by Notification of the Government of India in the Finance Department, No. 2664, dated 26th June 1893. This Notification still remains inoperative.

IX—*continued.*

PAPER CURRENCY—*continued.*

Notes when legal tender and when payable.—Every note is a legal tender in its own circle (except by Government at the office of issue), for the amount expressed in that note that is to say, whenever a note forms the integral sum or a portion of any payment either to Government on account of revenue or other claim, or to any body corporate or person in British India, it is a legal tender. Notes of any circle can be tendered to any department of Government anywhere in payment of dues; and railway companies may receive notes of any circle in payment of fares and freight, recovering the value of them from Government.

Notes are payable only at the office or offices of issue of the town from which they have been issued. Notes of subordinate circles are also payable at the office of the Presidency circle to which those sub-offices are subordinate. Beyond this, the law imposes no obligation to pay; but, for the accommodation of the public, notes of other circles are cashed at any Paper Currency office to such extent as the convenience of each office will permit. In ordinary circumstances, every Government treasury, of which there are about 250 in British India, cashes or exchanges notes, if it can do so without inconvenience; and when this cannot be done conveniently for large sums, small sums can generally be exchanged for travellers.

Reserve.—The whole amount of the coin and bullion received for currency notes is retained and secured as a reserve for payment of the notes issued, with the exception of a fixed amount which is invested in Government securities. The maximum limit of the amount so invested was originally fixed, by Section 19 of Act XX of 1882, at sixty millions of rupees; the issues having largely expanded, the Government of India was empowered by Act XV of 1890 to raise the limit to eighty millions. The power was utilised to raise the total investment to seventy millions on the 19th December 1890, and to eighty millions a year later, on the 3rd December 1891.

The interest accruing on the securities is entered in a separate account, and paid to the credit of the Government of India, under the head "Profits of note circulation." The expenditure of the Currency Department is entirely covered by these receipts, and there is in addition a considerable profit.

The average monthly circulation of the notes has risen in the last ten years from Rx. 14·71 millions in 1858-86 to Rx. 31·11 millions in 1894-95. The circulation in each province on the 31st March 1895 was—

	Rx.
Bengal	16,101,238
Bombay	9,878,911
Madras	4,157,268
Rangoon	562,593

X.

MINT AND COINAGE.

[TABLES 1 TO 21, PAGES 218 TO 253.]

Gold.

The old standard for coinage in Bengal was 99¼ parts of fine gold and three-quarters of a part of alloy. This was altered by Regulation XIV of 1818 to eleven-twelfths of fine gold and one-twelfth of alloy; but the law having become inoperative, the old standard was reverted to for a time. Act XVII of 1835 re-established the standard of eleven-twelfths fine but declared that no gold coin should thenceforward be a legal tender of payment in India.

Act XXIII of 1870 permits the coinage by Government on the standard of 1835 of the under-mentioned gold coins only, namely:—

	FINE GOLD. Grains.	ALLOY. Grains.	TOTAL. Grains.
Double mohur or 30-rupee piece	330	30	360
Mohur or 15-rupee piece	165	15	180
Two-thirds of a mohur or 10-rupee piece	110	10	120
One-third of a mohur or 5-rupee piece	55	5	60

But the issue of Notification No. 3764, dated the 12th December 1870, stopped the coinage of double mohurs and tenderers of bullion since that date have had the option of receiving payment only in 15, 10, or 5-rupee pieces of the weight and fineness specified above.

By Notification No. 3287, dated the 28th October 1868, sovereigns and half-sovereigns coined at any authorised Royal Mint in England or Australia, of current weight, were receivable in all Government treasuries in payment of sums due to Government as the equivalent of ten rupees and four annas, and of five rupees and two annas, respectively; and whenever available at any Government treasury, they were payable at the same rates to any person willing to receive them in payment of claims against the Government. The notification, which was a dead letter from the beginning, was superseded and cancelled by the notification mentioned in the following paragraph.

X—*continued.*

MINT AND COINAGE—*continued.*

Gold—continued.

On the 26th June 1893, the Indian mints were closed to the unrestricted coinage of silver for the public in view to the eventual adoption of a gold standard for India. Pending the final adoption by legislation of a gold standard, it was declared, by Notification No. 2662 of the same date, that gold coin and bullion would be received at the mints in exchange for Government rupees at the rate of 1*s.* 4*d.* the rupee. It was also declared, by another Notification No. 2663 of the same date, that sovereigns and half-sovereigns of current weight coined at any authorised Royal Mint in England or Australia would be received in all treasuries in British India in payment of sums due to Government at the rate of fifteen rupees for each sovereign and seven and a half rupees for each half-sovereign.

There is no limit prescribed by law for the loss in weight by wear and tear of gold coins to be received at their nominal value, but by Notification No. 2731, dated the 24th November 1869, the following rates of allowance are fixed as limits for their receipt at nominal value in treasuries, namely, for the mohur, sovereign, and 10-rupee piece, 0·774 grains; for the half-sovereign and 5-rupee piece, 0·512 grains.

Silver.

On the 31st August 1835, the only rupees of legal tender in British India, within the local limits specified in the several regulations prescribing the coinage, were the Bombay, Madras, Furruckabad, Sonat, and sicca rupee.

Act XVII of 1835, which took effect on 1st September 1835, directed the coinage of a Company's rupee weighing 180 grains, and of a standard fineness of eleven-twelfths, or 165 grains, of fine silver, and one-twelfth, or 15 grains, of alloy; and declared it equivalent to the Bombay, Madras, Furruckabad, and Sonat rupee, and to fifteen-sixteenths of the Calcutta sicca rupee.

Act XIII of 1836 discontinued the sicca rupee as legal tender in discharge of any debt, but permitted its receipt by collectors of land revenue and at all other public treasuries, by weight, subject to a charge of one per cent for re-coinage.

By Notifications dated the 21st March and the 12th May 1838, the Madras, Bombay, and Furruckabad rupees, and generally the rupees issued from any mint of the British Government that were still a legal tender in any part of India, were declared to be receivable by the Calcutta mint for re-coinage, if of full weight, at their intrinsic par, namely, as equal to Company's rupees, without any charge of seignorage for re-coinage.

Act XXIII of 1870 repealed all former Coinage Acts, but made no change in the weight or fineness of the coin. All rupees and half-rupees coined under Acts XVII of 1835, XIII of 1862, and XXIII of 1870, are legal tender in satisfaction of all engagements (unless clipped, filed, defaced, or diminished otherwise than by use) until by gradual wear they have lost more than two per cent of their original weight. Coins which have lost more than two per cent in weight are, when tendered at a treasury, received at the rate of one rupee a tola, and are not re-issued.

By Notification No. 2466 of the 7th December 1877, all silver coins coined and issued under the authority of the Government of India before the 1st September 1835 were called in with effect from the 1st June 1878. From that date such coins ceased to be legal tender and were thenceforth only receivable by weight at the treasuries of Government under Section 17 of the Coinage Act of 1870, at one rupee per tola.

Four-anna and two-anna pieces are legal tender only for fractions of a rupee. They are allowed to pass current as long as they have lost weight only by fair abrasion, but if they have lost weight from any other cause, they are treated as bullion.

The weight and fineness of the silver coins struck under Act XXIII of 1870 are the same as were prescribed by Act XVII of 1835, namely:—

	Fine Silver.	Alloy.	Weight.
	Grains.	Grains.	Grains.
Rupee	165	15	180
Half-rupee	82½	7½	90
Quarter rupee or 4-anna piece	41¼	3¾	45
Eighth of a rupee or 2-anna piece	20⅝	1⅞	22½

1 Rupee = 165 grains of pure silver.
1 Shilling = 80$\frac{4}{11}$ grains of pure silver.
1 Rupee = shillings 2·0439.*

The expression "Government rupee" in supersession of "Company's rupee," was introduced by Act XIII of 1862. That Act also repealed an inoperative clause of Act XVII of 1835 which had empowered the issue of a double rupee.

* Note.—The metallic value in sterling of the 165 grains of fine silver in a rupee is as follows, with the price of silver at the rates stated below per standard ounce:—

66 *d.*	= 2·044 *s.*	34 *d.*	= 1·053 *s.*
60 *d.*	= 1·858 *s.*	33 *d.*	= 1·022 *s.*
50 *d.*	= 1·548 *s.*	32 *d.*	= 0·991 *s.*
40 *d.*	= 1·239 *s.*	31 *d.*	= 0·960 *s.*
38 *d.*	= 1·177 *s.*	30 *d.*	= 0·929 *s.*
37 *d.*	= 1·146 *s.*	29 *d.*	= 0·898 *s.*
36 *d.*	= 1·115 *s.*	28 *d.*	= 0·867 *s.*
35 *d.*	= 1·084 *s.*	27 *d.*	= 0·836 *s.*

X—*concluded.*

MINT AND COINAGE—*concluded.*

Silver—concluded.

By Act IX of 1876 the Government mints may coin money for Native States, such coin being identical in weight and fineness with British Indian coin and legal tender in British India. Only two Native States (Alwar and Bikanir) have ceased minting for themselves and are supplied with coin minted for them under the Act by the Government of India.

The Monetary Convention (Act XVII of 1881) made between Great Britain and Portugal in pursuance of Article V of the treaty of commerce and extradition between Her Majesty and the King of Portugal ratified in January 1880, provided for the coinage in the Indian mints for the Portuguese possessions in India of a rupee, half-rupee, quarter-rupee, and eighth of a rupee. They were of the same standard weight and fineness as British Indian coins of the same denominations, and were legal tender throughout British India. British Indian coins were similarly legal tender throughout the Portuguese possessions in India. This Convention terminated on the 4th February 1892, and from that date the coins ceased to be legal tender. The attention of the public was drawn to this fact by Notification No. 2923, dated the 8th July 1893.

As stated under the head "Gold," the Indian mints were closed to the unrestricted coinage of silver for the public from the 26th June 1893, and Act VIII of 1893, passed on that date, repealed Sections 19 to 26 of the Indian Coinage Act of 1870 which provided for the coinage for the public of gold and silver bullion at the mints. An exception has since been made in respect of the receipt of silver coin and bullion for coinage into British dollars to be exported from India for circulation in the colonies of Hongkong and the Straits Settlements (Notification No. 2457, dated the 25th May 1895).

Copper.

The copper coinage was introduced into the Bengal Presidency by Act XVII of 1835, and into the Madras and Bombay Presidencies (with retrospective effect in the latter) by Act XXII of 1844.

The weight of the copper coins now struck under Act XXIII of 1870 remains the same as it was in 1835. It is as follows:—

	Grains Troy.
Double pice, or half-anna	200
Pice or quarter-anna	100
Half pice or one-eighth of an anna	50
Pie, being one-third of a pice or one-twelfth of an anna	33⅓

Ninety rupees' worth of pice weigh 576,000 grains troy, or 82$\frac{2}{7}$lb avoirdupois.

The two Native States of Alwar and Bikanir, which are supplied with silver coin under the Native Coinage Act, are also supplied with copper coin struck at the Indian mints. Two other States, Dhar and Dewas, have also ceased to mint copper and are supplied with copper coins struck at the Government mints. The following copper coins were also struck for Portuguese India under the Monetary Convention before mentioned:—Half tanga weighing 200 grs. troy and corresponding to the double pice or half-anna of British India, quarter tanga weighing 100 grs. troy and corresponding to the pice of British India, eighth of a tanga weighing 50 grs. troy and corresponding to the half pice of British India, and real or twelfth of a tanga, corresponding to the pie of British India. The value in copper of one Portuguese rupee is sixteen Portuguese tangas, sixty-four quarter tangas or pice, or one hundred and ninety-two reals or pies.

XI

POST OFFICE.

[Tables 1 to 17, Pages 254 to 287.]

Before the year 1837 there was no general system of postal service in India: there were only certain services for the conveyance of letters and parcels instituted by Government for its own purposes, but the use of which was conceded as a privilege to private persons. By Act XVII of 1837 a public post was established, and the right to convey letters for hire in the territories of the East India Company was made a monopoly and vested in the Government.

2. The organisation of the service was at first very imperfect. The presidency postmasters, as postmasters general, supervised a certain number of provincial offices and provided for the conveyance of mails on a few main lines, while the collectors of districts had charge of district offices and local lines. There was no central authority to secure the co-operation of the postal officials of the several provinces or to maintain uniformity of practice. There were no postage stamps, and the charge, levied in cash, for the carriage of a letter varied according to weight and the distance it was carried. From Calcutta to Bombay the charge was one rupee per tola; from Calcutta to Agra twelve annas. In 1850 a Commission was appointed to report on the working of the Post Office, and as a result Act XVII of 1837 was repealed and Act XVII of 1854 enacted in its stead. This Act, which marks

XI—*continued.*

POST OFFICE—*continued.*

the commencement of the organisation of the Post Office on its present basis, provided for the issue of postage stamps, and prescribed rates for the conveyance of letters irrespective of distance, power being conferred on the Government to reduce the rates. A Director General of the Post Office was appointed for the whole of India; the office of postmaster general was separated from that of presidency postmaster; postmasters general were appointed for the direct administration of the services of the larger provinces; and deputy postmasters general, at first designated chief inspectors, were appointed for the minor charges of the smaller provinces, and the principal political agencies. A central office of account was established in Calcutta in 1861. The system of sorting letters in transit by railway was introduced in 1864, and the sea post office for sorting letters in transit from Suez to Bombay was established in 1868. The Act of 1854 was repealed by the Indian Post Office Act XIV of 1866 now in force.

3. The main business of the Post Office is the conveyance and delivery of letters, post-cards, newspapers, parcels, and book-packets; and the total length of mail lines over which its work is carried on is 120,171 miles. Of this total railway and steamer services now extend over 33,695 miles, under arrangements which secure correspondence of the trains and steamers with other mail lines and services and allow of the maintenance of travelling post offices in the trains and steamers. The other 86,476 miles of mail lines are worked by country-boats, mail-carts of various kinds, horses, camels, and runners. The number of post offices is now 10,714, of letter-boxes 28,816, and of postmen and village postmen 16,759. The number of letters, newspapers, packets, and parcels given out for delivery has increased from 33¼ millions in 1855-56 to 394 millions in 1894-95.

4. Before 1854 the Post Office undertook the carriage of parcels at rates varying with weight and distance and this system was continued by Act XVII of 1854 and Act XIV of 1866; but in 1870 rates were sanctioned varying only with weight and irrespective of distance. In 1873 arrangements were made for the carriage of parcels to and from England, and for their distribution and collection through the agency of the P. & O. Steam Navigation Company. In 1875 the Postal Union was established and British India became a member of the Union on the 1st July 1876. In 1875 parcel exchanges were arranged with the German Post Office, in 1876 with the Post Offices of Austria-Hungary and Ceylon, in 1877 with the Straits Settlements, in 1882 with China, and in 1885 with the Post Offices of Great Britain, Victoria, Cape Colony, West Indies, Gibraltar, and Malta. At the present date parcels are exchanged by post between India and almost every country in the world.

5. In 1877 the Post Office undertook to collect from the addressee the declared value of a parcel or registered article and to transmit the money to the sender. The extent to which the value-payable system is now used by traders and their customers is shown by the fact that in 1894-95—17 years after its introduction—the number of value-payable articles carried was 1,736,000 and the value declared for realisation was Rx. 1,993,000.

6. Since 1878 the Post Office has undertaken the insurance of letters and parcels entrusted to it for conveyance; until 1890 there was no limit to the amount for which an article could be insured, but in that year the limit of ₹1,000 was fixed. The insurance fee was at first fixed at one-half per cent, but after about six months it was reduced to one-quarter per cent. The gross amount for which articles were insured by the Post Office for transit was, in 1894-95, over Rx. 8,266,000.

7. In 1880 the Government of India transferred from the treasuries to the Post Office the business of the issue and payment of money orders with the result that within a few months the number of orders issued was quadrupled. The number of inland money orders issued has increased from 1,604,000 of the aggregate value of Rx. 4,570,000 in 1880-81 to 9,422,000, of the aggregate value of Rx. 19,431,000, in 1894-95. Special arrangements have been made and special forms introduced so as to adapt the money order system to remittances of revenue, rent, and miscellaneous Government dues, and in several provinces the system is largely used for these purposes. Foreign money orders are also exchanged with the principal countries of the world. Since 1884 British postal orders, of values ranging from 1*s.* to £1, have been sold at Indian post offices.

8. In 1870 Government Savings Banks were established in connection with district treasuries. In 1882 sanction was given for the opening of savings banks at post offices, and three years later the closure of the treasury savings banks was ordered. In 1882-83 the number of depositors in postal savings banks was 39,121 and the amount at their credit Rx. 279,600. By the end of 1894-95 the number of depositors had increased to 611,947 and the amount at their credit to Rx. 8,401,800. Since 1882 the Post Office also undertakes on behalf of depositor in the savings banks the purchase and sale of Government promissory notes and the transfer of Government securities to the Comptroller General for custody on behalf of the purchaser.

9. In 1883 a large number of post offices were constituted receiving offices for the transmission of inland telegrams by post to the nearest telegraph office; and at the same time telegraph work was also undertaken by the Post Office in a certain number of offices. The number of telegraph offices has thus been largely increased, and out of 1,362 state (non-railway) telegraph offices on 31st March 1895, 1,109 were postal telegraph offices. In 1894-95 the number of messages transmitted by receiving offices was 36,925, and the number of messages signalled by postal telegraph offices was 1,436,272, excluding 77,252 free messages.

XI—*continued.*

POST OFFICE—*continued.*

10. When the Post Office was first established its agency was largely utilised for the management of staging bungalows, the carriage of goods by bullock train, and the conveyance of passengers by palankeen, mail-cart, or parcel van. The extension of the railway system has to a great extent removed the need of these services; and since 1863-64 the Post Office has gradually withdrawn from the management of this class of business, and so far as passenger and goods services are concerned, it now maintains and manages only a single carriage and bullock train service—the one between Kalka and Simla. A very large number of carriage and cart lines are, however, subsidised for the carriage of the mails.

11. The agency of the Post Office is used throughout India for the sale of revenue bill stamps; and in several provinces for the sale of court-fee stamps, non-judicial stamps, and closed packets of quinine manufactured at the Government quinine factories and prepared in packets under Government superintendence.

12. In 1884, sanction was given to a scheme of life insurance, whereby an officer of the postal service is enabled to obtain a policy for a sum not exceeding ₹4,000 on the security of Government. In 1888 the scheme was extended to the Telegraph Department. By the end of 1894-95 2,257 lives had been insured for the aggregate amount of Rx. 315,027, and the active policies outstanding were 1,923, of which 1,535 were held by Post Office servants and 388 by servants of the Telegraph Department.

13. In 1890 the Post Office undertook the payment of military pensioners in the Panjab at the post offices nearest their homes. The number of pensioners thus paid in 1894-95 was 22,801, and the aggregate amount paid to them Rx. 162,310.

14. From 1854 to 1869 the lowest rate of postage on an inland letter was half an anna for a weight not exceeding a quarter of a tola. The limit of weight was doubled from the 1st April 1869, and from that date the rate has been half an anna for a weight not exceeding half a tola. In 1873 a further reduction of postage was made by the sale of embossed envelopes at the face value of the stamp without any charge for the envelopes themselves. These envelopes were at first of two kinds, bearing stamps of half an anna and one anna; but the demand for the one-anna envelope was small, and it was abolished in 1886. In 1877 the additional charge on redirection, which was the same as the original postage, was abolished. The introduction of the inland post-card in 1879 gave a lower rate of postage than even that given by the rate of half an anna per half tola with an envelope supplied without charge. The inland post-card has from its introduction been priced at one pice (three pies) per single card and half an anna per reply card, the price in each case covering the cost of the card as well as postage.

The minimum postage on newspapers was originally one anna for 6 tolas of weight. This rate was lowered in 1866 to one anna for 10 tolas, and in 1872 to the present rate of half an anna for 10 tolas. Additional privileges are also given to newspapers for which the postage for three months is prepaid in cash: if the weight of the newspaper does not exceed 3 tolas, postage is charged at 3 pies per copy, and in all cases copies packed in bundles and sent to agents for sale are charged half the postage of single copies, and copies sent in exchange for other newspapers are carried free.

The postage on packets other than newspapers was one anna for 10 tolas until 1877, when the rate was reduced to one anna for 10 tolas for book packets and two annas for every 40 tolas for book packets and patterns. In 1878 the packet rate was lowered to half an anna per 10 tolas.

Before 1870 postage on parcels was charged according to distance, but in that year a uniform rate was fixed of three annas for 10 tolas. In 1873 the minimum charge was fixed at four annas for 20 tolas, but four years later it was raised to eight annas for 40 tolas. The present rates of parcel postage were fixed in 1880, and are four annas for 20 tolas, eight annas for any weight exceeding 20 and up to 40 tolas, and four annas for each additional rate of 40 tolas or part thereof.

The fee for registration, originally four annas, was reduced to two annas in 1879 for book and pattern packets, and in 1881 for all other classes of postal articles.

Under the system in force down to 1866 official correspondence was carried free under an official frank, and the departments were debited with the postage at the ordinary rates. This system was replaced by the use of service stamps for official correspondence, and at the same time the rates were reduced. They now stand as follows:—letters not exceeding half a tola—half an anna; above half a tola to 10 tolas—one anna; and one anna for each additional 10 tolas up to 40 tolas: letters above 40 tolas in weight are charged one anna per tola. The rates for packets and parcels are the ordinary rates for those articles.

Before 1892, the rates of postage on letters, post-cards, and packets for foreign countries varied with the cost of transit and other considerations; but in that year the elementary union rates of postage were adopted by India for correspondence for all parts of the world, whether within or without the Postal Union. Those rates are—for letters, 2½ annas per half-ounce; for post-cards, 1 anna each; for printed papers, half an anna per two ounces; for business papers entirely or partly in manuscript, half an anna per two ounces, subject to a minimum charge of 2½ annas; for samples, half an anna per two ounces, subject to a minimum charge of one anna.

XIV

TELEGRAPH.

[TABLES 1 TO 8, PAGES 308 TO 323.]

The first steps towards the establishment of lines of electric telegraph in India were taken in 1839 when Dr. W. B. O'Shaughnessy, Assistant Surgeon and Professor of Chemistry in the Medical College at Calcutta, instituted a series of experiments in communicating signals by means of electricity. The result of these experiments, which were carried out on a somewhat large scale in the Botanical Gardens, Calcutta, convinced their author of the practicability of the electric telegraph. His reports and accounts of his researches were published in the Journal of the Asiatic Society for Bengal for September 1839. In his earlier endeavours to obtain the sanction of the Court of Directors of the East India Company to the construction of an experimental line of telegraph, Dr. O'Shaughnessy met with disappointment, but he persevered, devoting the next ten years to further experiments.

2. In 1851 he succeeded in obtaining sanction to construct experimental lines along the Hooghly from Calcutta to Diamond Harbour, with a branch from Bishtopur to Moyapur, and an extension from Kukrabáti, on the further side of the Hooghly, to Kedgeree, making, with some short additional sections, a total of 82 miles. In the same year four offices—Calcutta, Moyapur, Bishtopur, and Diamond Harbour—were opened for business, principally connected with the shipping, and two others, Kukrahâti and Kedgeree, were added in February 1852. The lines were partly overhead and partly underground. The receiving instrument was a small galvanoscope, designed by Dr. O'Shaughnessy and made in India, and this pattern continued in use until the Morse instruments replaced them early in 1857.

3. A report on the working of these lines, submitted in 1852, taken up by Lord Dalhousie, who obtained from the Court of Directors permission to construct lines from Calcutta to Agra, from Agra to Bombay, from Agra to Peshawar, from Bombay to Madras, these lines extending over 3,050 miles and including 41 offices. They were opened for paid message traffic from 1st February 1855.

4. By 1857 the lines had been further extended, bringing Mysore, Ootacamund, and Calicut into the system, which then comprised over 4,555 miles of wire and 62 offices open to the public.

5. Although during the mutiny the lines in the North-Western Provinces and in parts of Central India were considerably damaged by the mutineers (some 760 miles being entirely demolished), the Telegraph Department was able to render signal service in connection with the suppression of the rebellion; and the fact that nearly 2,000 miles of lines were constructed during the following year, in addition to the reconstruction of the lines destroyed, shows that the political value of the telegraph was appreciated.

6. With the single exception of the year 1861-62, the Department has from this time steadily expanded year by year as shewn by the tables. The following developments of the operations of the Department in recent years may be specially recorded.

7. In 1873 the Department was assigned the duty of supplying to the State railways, at fixed rates of rental, wires, instruments, and the technical supervision of their telegraph offices. The same duties are undertaken for the telegraph service established in connection with the canal systems of India, and wires are also provided on similar terms for all new guaranteed or private railways, the supply of instruments and the supervision of their offices being optional with these undertakings. On the 31st March 1895, 45,142 miles of wire were maintained for railways and canals, and 1,925 railway and canal offices were technically supervised by the Department.

8. In 1883 an arrangement was made between the Postal and Telegraph Departments, under which the latter constructed short branch telegraph lines to selected outlying post offices and fitted up instruments in them, the Postal Department undertaking the working of the telegraph offices thus opened under the technical supervision of the Telegraph Department, charging the Telegraph Department the actual cost of doing the telegraph work. The Telegraph Department on its side maintains and repairs the branch lines and supplies all the requirements of the offices, being credited with the revenue earned. This system has enabled the State to extend the telegraph to places of comparatively small importance at a trifling cost. On the 31st March 1895 the total number of offices worked by the Postal Department on behalf of the Telegraph Department amounted to 1,107.

9. The Telegraph Department has also been entrusted with the supply of military telegraph and telephone systems, both for the army in the field in all military expeditions, and for use in connection with the fortifications and defences of the country. It trains annually a large number of British soldiers in telegraphy, and employs a proportion of those trained in many of its offices, thus maintaining a reserve of trained military telegraphists for the service of the State in time of war.

10. The Department also supplies private lines, either telegraph or telephone, to the various departments of Government, to municipalities, and to other local bodies, and also to private customers in places where the wants of the latter cannot be met by private telephone companies.

TELEGRAPH—*continued.*

11. The following table gives in a convenient form all the inland tariffs which have been in force since the opening of the telegraph lines to paid telegrams :—

Date.		Rate.			Extra charges.			
From	To	Unit number of words and charge.	For what distance.	Words passed free in address.	Repetition.	Cypher.	Delivery and other charges.	Remarks.
Feb. 1855 ...	April 1859...	16 per rupee. (From 1st May 1855 increments of half groups at half rates).	Per 400 miles of *telegraph line.*	Names of station to and station from.	50°/₀ extra (repetition compulsory for commercial messages).	350°/₀ extra (each figure counted as a word).	Four annas per mile. Free delivery, radius ½ mile. Double charge between 6 P.M. and 6 A.M.	From January 1859 the tariff for Indo-Ceylon traffic was R1 = *extra* for 16 words, and 8 annas for repetition on commercial and business messages.
April 1859...	Jan. 1866...	First 16 words R1; each additional word one anna.	Per 400 miles of *direct distance.*	Ditto; also ordinary designations, such as "Mr.", "Captain," etc.	50°/₀ extra (optional for all messages.)	No extra charge.	Two annas per mile. Free delivery, radius 2 miles. From 1860 double charge on Sundays and certain holidays. From December 1862 readdressed messages treated as original messages and charged according to distance retransmitted. Note.—The general rule before this date was to post such messages to their new destination.	Ditto.
Jan. 1866 ...	Oct. 1868 ...	1st 20 words. *R a. p.* 0 8 0 1 0 0 1 8 8 1 0 0 Half increments at half rates.	100 miles. 200 „ 400 „ Every additional 400 miles.	Only name of station from free.	Ditto ...	Ditto ...	Delivery fee abolished. Booking fee eight annas per message.	To Ceylon, R2 per group, and R1 per additional half group *extra.*
Oct. 1868 ...	March 1870	One rupee per ten words.	Any distance.	Ditto ...	100 °/₀ extra (optional for ordinary messages).	Cypher and Code 100 °/₀ extra. Five figures charged as one word.	No delivery or booking fee.	To Ceylon, R2-8 per 20 words, and R1-4 for every additional ten words *extra.*
March 1870	Jan. 1872...	Ditto ...	Ditto ...	Two out of every three, *i.e.*, three words counted as one.	Ditto ...	Ditto ...	Ditto ...	To Ceylon, R1 per 20 words *extra.*
Jan. 1872 ...	Jan. 1873...	One rupee per six words.	Ditto ...	Address entirely free.	Ditto ...	Ditto ...	Ditto ...	To Ceylon and Burma 50 °/₀ *extra.* Press messages at one-fourth ordinary rates with no extra night or Sunday charge.
Jan. 1873 ...	Nov. 1877...	Ditto ...	Ditto ...	Ditto ...	50 °/₀ extra (optional for all messages).	Code charge abolished. Cypher 100 % extra.	Ditto ...	
Nov. 1877...	April 1881...	Ditto ...	Ditto ...	Ditto ...	Ditto ...	Ditto	Ditto, but re-addressed messages exempted from forwarding charges.	From 1st July 1880, Ceylon ceased to form part of the Telegraph Administration of India.

TELEGRAPH—*continued.*

Date.		Rate.		Words passed free in address.	Extra charges.			Remarks.
From	To	Unit number of words and charge.	For what distance.		Repetition.	Cypher.	Delivery and other charges.	
April 1881 ...	July 1881 ...	One rupee per six words.	Any distance but 50 % extracharge between India and Burma abolished.	Address entirely free.	50% extra (optional for all messages).	100 % extra cypher charge abolished. Letter cypher inadmissible. Three figures charged as one word.	No delivery or booking free, but readdressed messages exempted from forwarding charges, and double charges for telegrams sent at night and on Sundays and holidays abolished.	
July 1881 ...	Jan. 1882 ...	One rupee for six words or less, two annas for each additional word. Local messages deliverable within six miles charged at four annas per group of six words.	Any distance in India and Burma.	Ditto ...	Ditto ...	Ditto ...	Ditto ...	Press and Indo-Ceylon messages continued to be charged by groups of six words.
Jan. 1882 ...	July 1886...	Ordinary rate one rupee for eight words and two annas for each additional word.	Ditto ...	Ditto ...	Ditto ...	Letter cypher inadmissible; three figures charged as one word.	No delivery or booking fee.	Indo-Ceylon messages treated as *Foreign*, and a word-rate introduced. Press messages in India and Burma charged as follows:—*Ordinary* rate, one rupee for 1st 32 words or groups of 3 figures, and 2 annas for every additional 4 words or groups of 3 figures. *Urgent* rate, double the *Ordinary*. *Deferred* rate, half the *Ordinary*.
Jan. 1882 ...	July 1886...	Urgent rate, double the ordinary rate. Deferred rate, half the ordinary rate. Local messages, *i.e.*, those tendered for transmission to places within a radius of six miles of a central telegraph office, four annas per eight words or fraction thereof.	Ditto ...	Ditto ...	Ditto ...	Ditto ...	Ditto ...	Ditto.
July 1886 ...	Date ...	Ditto, but local messages discontinued.	Ditto ...	Ditto ...	25% extra (optional for all messages.)	Ditto ...	Ditto ...	Ditto.

12. *Tariff between India and the United Kingdom.*—Through communication from India to Europe *viâ* Karáchi and the Persian Gulf was first established on the 27th January 1865, and the cable route from Bombay *viâ* Aden and Suez was opened in the spring of 1870. The original tariff was £5 or ₹50 for messages of 20 words between India and the United Kingdom, which was reduced at the Vienna International Telegraph Conference of 1868 to £2-17*s.*-6*d.* or ₹28-8 for 20 words. In 1871 this tariff was raised at a special conference at Berne to £4-10 or ₹45 for 20 words, and at the St. Petersburg Conference of 1875 a word-rate was established, which was fixed at francs 5·50 *viâ* Suez or

XIV—*concluded.*

TELEGRAPH—*concluded.*

viâ Teheran, and francs 5 *viâ* Turkey. At the Berlin Conference of 1885 the rates were reduced to francs 5 and 4·50 respectively, at which they now stand. The charge to the continent of Europe generally is the same as to the United Kingdom.

13. *Payment of Telegrams.*—All telegrams, on the service of the State or for private individuals, are paid for, except those relating to the Telegraph Department. Except in the case of certain offices of the Government, or during military operations, all State telegrams are prepaid in cash or stamps, and, in the exceptional cases, the payment is adjusted subsequently in account by debit against the Department concerned. Private telegrams are always prepaid, except, in some special cases, when recovery of the charge is made from the addressee.

14. *Method of Payment.*—Telegrams tendered at offices of the Department are stamped to the requisite amount with telegraph stamps, the upper halves of which are returned to the sender attached to his receipt, while the lower halves are attached to the telegram. Both halves are cancelled before separation. Telegrams tendered at post offices may be prepaid either in telegraph or postage stamps. In the latter case, the receipt does not bear any portion of the stamps, the charge made being recorded on it over the signature of the post master. Certain post offices also, which are not telegraph offices, are empowered to receive telegrams and to grant receipts for the same. Such telegrams are transmitted free by post to the nearest telegraph office for despatch. Telegrams posted by the sender at places where there is no telegraph, for transmission by post to the nearest telegraph office, may be paid for either in telegraph or postage stamps. In such cases the receipt is posted to the sender.

15. Before 1869 payment in stamps was limited to telegrams that had to be sent to a telegraph office by post or from a distance. The first stamps used for this purpose, in 1855, were ordinary embossed court-fee stamps, and the telegram itself was written on the embossed paper. In 1859 stamps of the denominations of R4, R1, and 4 annas superseded the court-fee paper, and in 1869 double headed stamps were introduced for the payment of *all* telegrams, in denominations varying from R50 to one anna. The pattern of these stamps was changed in 1889, the upper half in the new stamps not bearing the portrait of Her Majesty, but the method of use remained unchanged.

16. *Constitution.*—The control of the Telegraph Department was vested from its commencement up to the 30th September 1867 in the Home Department of the Government of India. From the 1st October 1867 to the 30th April 1870 the work was transferred to the Foreign Department of the Government of India as a matter of administrative convenience, and on the 1st May 1870 it was finally transferred to the Public Works Department. The constitution of the Department is at present as follows in the superior establishment:—

1	Director General	Class I
1	Deputy Director General	„ II
2	Directors	„ III
4	Chief Superintendents	„ IV
10	Superintendents	„ V
13	„ 2nd grade	„ V
7	Assistant Superintendents	„ VI
12	„ „ 2nd grade	„ VI
12	„ „	„ VII
	The remainder Assistant Superintendents, 2nd grade ...	„ VII

The upper subordinate establishment consists of two grades of sub-assistant superintendents, at present containing 41 and 40 men respectively. The signalling establishment consists of about 1,685 telegraph masters and signallers, and the lower subordinate establishment of about 1,207 sub-inspectors, line riders, and linemen. The numbers in these two latter establishments vary with the requirements of the service. In addition to the signalling establishment proper of the Department, 341 military signallers and 1,400 postal clerks were wholly or partially employed on signalling duty on the 31st March 1895.

17. *Telegraph Acts.*—The first Telegraph Act for India was Act No. XXXIV of 1854. The Acts which have since been passed, each in turn repealing its predecessor, are—

Act No. VIII of 1860.
Act No. I of 1876.
Act No. XIII of 1885.

These Acts deal with the privileges and powers of Government in respect to telegraphs, their authority to grant licenses for the establishment of telegraphs, and the regulations under which telegraphs are to be worked. They also provide and regulate the powers of the Telegraph Department to place telegraph lines and posts on public and private lands, and declare the penalties for infringements of licenses, and for all other offences connected with telegraph lines, and with the transmission of telegrams. Under the provisions of the Telegraph Act, rules and regulations for the acceptance, transmission, and custody of telegrams are published from time to time in the *Gazette of India* by the Governor General in Council.

XV.

RAILWAYS.

[TABLES 1 TO 9, PAGES 324 TO 349.]

At the end of 1894-95 there were—

	Open for traffic.	In progress.
State lines	14,141 miles.	1,825 miles.
Guaranteed and assisted lines	2,994 „	64 „
Native State lines	1,657 „	318 „
Foreign State lines (French and Portuguese India)	59 „	...

The total mileage of all railways was—

18,851 miles open.
2,207 miles in progress.

The rate of progress in the last twenty years in opening out railway communications will be apparent from the following figures :—

	Miles open.		Miles open.
1875	6,523	1885-86	12,385
1876	6,837	1886-87	13,398
1877	7,322	1887-88	14,384
1878	8,222	1888-89	15,248
1879	8,499	1889-90	16,104
1880	9,167	1890-91	16,984
1881	9,895	1891-92	17,576
1882	10,155	1892-93	18,048
1883-84	10,838	1893-94	18,500
1884-85	12,015	1894-95	18,851

In the first of these two decades the mileage open increased at the average rate of 549 miles annually. In the second decade the increase was at the rate of 646 miles.

The increase in gross earnings (from coaching and goods traffic) has in the same period been as follows:—

	Coaching.	Goods.	TOTAL.		Coaching.	Goods.	TOTAL.
	Rx.	*Rx.*	*Rx.*		*Rx.*	*Rx.*	*Rx.*
1875 ...	2,654,375	5,020,018	7,674,393	1885 ...	5,557,164	11,938,624	17,495,788
1876 ...	2,863,066	6,129,075	8,992,141	1886 ...	5,809,663	12,391,655	18,201,318
1877 ...	3,132,314	8,408,524	11,540,838	1887 ...	6,028,350	11,927,099	17,955,449
1878 ...	3,379,741	7,288,481	10,668,222	1888 ...	6,433,003	12,788,052	19,221,055
1879 ...	3,653,553	7,806,126	11,459,679	1889 ...	6,896,476	13,023,524	19,920,000
1880 ...	4,052,994	8,233,597	12,286,591	1890 ...	7,053,558	12,966,987	20,020,545
1881 ...	4,300,507	9,576,215	13,876,722	1891 ...	7,745,642	15,571,708	23,317,350
1882 ...	4,660,938	10,182,551	14,843,489	1892 ...	7,736,605	14,751,884	22,488,489
1883 ...	4,606,870	11,288,865	15,895,735	1893 ...	8,185,527	15,177,895	23,363,422
1884 ...	5,071,406	10,565,513	15,636,919	1894 ...	8,485,040	16,212,590	24,697,630

In the first of the two decades the average rate of increase in the total of gross earnings was Rx. 796,252, or 10·3 per cent annually; in the second decade the increase was Rx. 720,184, or 4·1 per cent. The rate of increase in coaching and goods traffic separately was—

	Coaching.	Goods.
in the first decade ...	... 9·1	11
„ second „ ...	... 5·2	3·6

The total earnings in 1894 were Rx. 25,452,072 and the total expenses Rx. 11,940,652, which made about 47 per cent of the receipts, leaving a net profit of Rx. 13,511,420. Of this Rx. 3,642,641 were contributed by the East Indian Railway; the net profits of the Great Indian Peninsula Railway were Rx. 1,625,659; of the North-Western Railway Rx. 1,282,518; of the Bombay-Baroda line Rx. 1,007,097; and of the Rajputana-Malwa Rx. 1,535,416. These five lines, with a total of 7,525 miles, being about 40 per cent of the whole open mileage, brought in about 67 per cent of the aggregate receipts.

XV—*continued.*

RAILWAYS—*continued.*

The gross earnings from coaching and goods traffic per mile of the lines amounted in 1890 to Rx. 1,180, in 1891 to Rx. 1,328, in 1892 to Rx. 1,246, in 1893 to Rx. 1,267, and in 1894 to Rx. 1,314. The earnings per mile of each of the principal lines in the last five years were as follows :—

	1890.	1891.	1892.	1893.	1894.
	Rx.	*Rx.*	*Rx.*	*Rx.*	*Rx.*
1. Bombay, Baroda and Central India ...	2,756	3,013	3,028	3,221	3,378

33. The Gaekwar's Dabhoi	293	278	330	349	332
34. Jatalsar-Rájkot	...	...	...	303	331

During the last ten years, that is, since 1885-86, the number of miles open has increased from 12,385 to 18,851, the increase being 52 per cent, and the gross earnings in the same period have increased from Rx. 17,495,788 to Rx. 24,697,630, the increase being 41 per cent.

XXI.

EMIGRATION.

[TABLES 1 TO 5, PAGES 402 TO 404.]

The figures in these tables relate solely to emigration as carried on under the Emigration Laws. They take no account of the numbers who leave India as passengers, not having been recruited by emigration agencies for service in the Colonies, these being separately dealt with in Part XXI of this volume. These tables also take no account of the persons who leave India on pilgrimage to the holy places in Arabia, of whom small but uncertain numbers settle out of India.

The number of emigrants from India during the ten years, 1885-86 to 1894-95, amounted to 131,339, making an annual average of 13,139 persons. Few if any, even of this insignificant number, quit the country with the intention of permanently establishing their domicile elsewhere, most if not all of them in fact leaving with the hope of returning with their savings to their homes in a few years. The number of persons who returned during the last ten years amounted to 73,525, an average of 7,352 yearly, or somewhat more than one-half of the number who left India. The mortality amongst emigrants is high in some of the Colonies to which they go, and of those who survive a substantial proportion elect to continue to work in the Colony after their term of indenture expires, and many of these never return to India. In Mauritius, for instance, about 69 per cent of the population (256,000 out of a population of 372,000) are Indian settlers, and in Trinidad and elsewhere the settled Indians are increasing in numbers.

XXI—*continued.*

EMIGRATION—*continued.*

There are five places in India from which emigration may legally be carried on—Calcutta, Bombay, Madras, and the two French settlements of Pondichery and Karikal. From Bombay emigration was stopped many years ago, and, though no legal restriction exists, recruiting has never been resumed, labour in the Western Presidency being, on the whole, so well paid that there is but little inducement to emigrate to the coolie-employing Colonies. From the French settlements there has been no emigration since 1884, except in one year, 1888-89. The port of Calcutta is the most convenient for the shipment of emigrants drawn from the impoverished masses of the thickly-populated provinces of Oudh and Bihár, and the main stream of emigration flows down the Hooghly. Of the 18,428 persons who emigrated from India in 1894-95, as many as 16,329 were shipped from Calcutta, almost all of them from the North-Western Provinces, Oudh, and Bihár. From Madras 2,099 were shipped.

The destinations of the emigrants in the last five years were as follows:—

	1890-91.	1891-92.	1892-93.	1893-94.	1894-95.
To Mauritius ...	3,039	989	...	485	1,029
„ Natal ...	4,330	3,349	3,119	2,612	3,592
„ Demerara ...	5,218	5,231	4,723	5,883	7,200
„ Trinidad ...	3,435	3,285	2,620	1,926	3,185
„ Dutch Guiana ...	1,249	698	1,075	1,104	1,279
„ Fiji ...	1,171	1,985	781	1,082	1,432
„ Jamaica ...	1,087	1,060	...	486	711
„ St. Lucia ...	556	...	...	157	...
TOTAL ...	20,085	16,597	12,318	13,735	18,428

From Calcutta the bulk of the emigrants sailed to British and Dutch Guiana and Trinidad, much the largest proportion of the whole (7,200) going to Demerara. About a fifth of the whole number went to Natal and Fiji. There is a considerable flow of native labourers to Ceylon and the Straits, but this traffic is not conducted under the provisions of the Emigration Act.

XXII.

NATIVE PASSENGER SHIPS.

[TABLES 1 TO 3, PAGES 405 TO 408.]

The total number of persons who sailed from Indian ports in native passenger ships, that is, sailed as passengers, being neither emigrants to the Colonies nor pilgrims to the holy places in Arabia, was:—

In 1890-91	...	1,185,709
„ 1891-92	...	1,295,992
„ 1892-93	...	1,123,044
„ 1893-94	...	1,009,061
„ 1894-95	...	1,470,540

The increase in 1894-95 occurred in the Bombay Presidency, and it is apparent rather than real, being due to the inclusion of passengers who shipped at other ports of the Presidency than Bombay and Karachi. In the preceding years the local authorities returned only the numbers of passengers who shipped at those two ports.

The great bulk of the passengers voyaged only within Indian limits, not more than 68,802 leaving India in 1893-94 and about 86,000 in the past year. Of these latter, more than two-thirds went from the Madras Presidency to the Straits Settlements (14,239) and to Ceylon (45,002), most of the remainder going from Bombay and Karachi to the Persian Gulf (11,394), Mauritius, Aden, and Zanzibar, and from Burma to the Straits Settlements (4,059).

The large number (1,384,591) who voyaged within Indian limits confined their migrations in the main to ports within their own presidency, only 211,565 out of the whole number leaving their own presidency or province to seek for work in other provinces. These migrations from province to province are practically limited to voyages undertaken by coolies from Madras and Bengal to Burma and to the return voyages of coolies from Burma to their own provinces.

XXIII.

COTTON MILLS.

[TABLES 1 AND 2, PAGES 410 TO 415.]

There were at work in India, at the end of 1894-95, 144 cotton mills, containing 34,161 looms and 3,711,669 spindles. They employed a daily average number of 139,578 persons, of whom, as far as details have been obtained, there were 87,273 men, 26,570 women, 15,056 young persons, and 9,679 children. The nominal capital of the mills, as far as this information has been furnished, is returned at about Rx. 12,335,000; but there is no return of the capital of nine mills worked by private proprietary, and probably the whole capital invested in this industry may be taken to be not less than Rx. 13,265,000.

Of the 144 mills, there are 100 in the Bombay Presidency, of which 67 are in the town and island of Bombay. There are eight mills in Bengal, all in the vicinity of Calcutta; eleven in Madras, of which four are in the town of

XXIII—*continued.*

COTTON MILLS—*continued.*

Madras; five in the North-Western Provinces, all but one at Cawnpore; two in the Panjab (at Delhi); one at Indore; six in the Central Provinces; one in Ajmere-Merwara; three in Hyderabad (Nizam's Territory); one in Berar; two in Mysore; three in the French settlement of Pondichery; and one in Travancore. Five out of the seven new mills which commenced work during the year are located in the Bombay Presidency, which possesses 69 per cent of the whole number of mills in India, 71 per cent of the spindles, and 79 per cent of the looms. Twelve of the mills are situated in Native States and in French-Indian territory.

The consumption of cotton by the Indian mills in the year is estimated to have amounted to 1,375,000 bales of 400 lbs each, or say 4,910,000 cwt.

The industry dates from 1851, when the first mill was started. The following figures exhibit the progress made in the construction and extension of mills in the last seventeen years. For the years previous to 1878-79 the figures are defective:

	Mills. No.	Looms. No.	Spindles. No.	Persons employed. No.
1878-79	58	12,983	1,436,464	*
1879-80	58	13,307	1,470,830	39,537
1880-81	58	13,283	1,471,730	47,955
1881-82	62	14,386	1,550,944	52,231
1882-83	62	15,116	1,654,108	53,624
1883-84	74	16,251	1,895,284	61,836
1884-85	81	16,455	2,037,055	61,596
1885-86	89	16,548	2,198,545	71,577
1886-87	90	16,926	2,202,602	72,590
1887-88	97	18,840	2,375,739	80,515
1888-89	108	22,156	2,670,022	92,126
1889-90	114	22,078	2,934,637	99,224
1890-91	125	23,845	3,197,740	111,998
1891-92	127	24,670	3,268,524	117,922
1892-93	130	26,317	3,378,303	120,898
1893-94	137	29,392	3,539,681	130,570
1894-95	144	34,161	3,711,669	139,578

* Not stated.

XXIV.

JUTE AND HEMP MILLS.

[TABLES 1 AND 2, PAGES 416 AND 417.]

There were 28 mills working jute, and one mill working hemp, at the end of 1894-95, and employing a daily average number of 75,157 persons, namely, 50,154 men, 14,725 women, 3,359 young persons, and 6,919 children. The mills contained 10,048 looms and 201,217 spindles. The nominal capital of the mills, worked by joint stock companies, is stated in the returns at a little over Rx. 3,680,000; but the figures are not complete, for some of the mills no returns of capital having been furnished. Probably about Rx. 250,000 or Rx. 300,000 may be added to the total on account of these.

All but two of the mills are in Bengal, most of them in the vicinity of Calcutta, and one (a new mill opened in October last) in the French settlement of Chandernagore. Of the two not in Bengal, one (a small one) is at Vizagapatam (this being the mill which works hemp) and the other at Cawnpore.

The progress of the industry, during the last seventeen years, is shewn below:—

	Mills. No.	Looms. No.	Spindles. No.	Persons employed. No.
1878-79	21	4,645	65,882	*

* Not stated.

XXV.

WOOLLEN MILLS.

[TABLES 1 AND 2, PAGE 418.]

There were six woollen mills at work at the close of 1895—one in the 24-Parganas in Bengal, one at Cawnpore, one at Bangalore, one at Dhariwal in the Panjab, and two in the city of Bombay. The number of looms and spindles in 1895 was 531 and 17,244, and the value of the outturn is reported at about Rx. 256,360. The fabrics made at present consist mainly of blankets, great-coats for the police and native soldiery, and materials for servants' clothing. Serges and other cloths and hosiery are also made of excellent quality in the Cawnpore and Dhariwal mills, but the manufacture of superior goods is as yet comparatively limited.

XXVI.

PAPER MILLS.

[TABLES 1 AND 2, PAGE 419.]

There are ten paper mills—four in the Bombay Presidency, four in Bengal, one at Lucknow, and one at Gwalior which was not worked during the past year. Of the ten, three are private concerns in the Bombay presidency, one of which has not been at work for many years. The others have an aggregate nominal capital of Rx. 627,200. The fibrous materials used for making paper are chiefly rags, babui and munj grasses, straw, jute and hemp cuttings, and old jute bags and cloth. The quality of the papers made is now very good, and they have a large and increasing sale. Most of the white and blue foolscap and much of the blotting paper, notepaper, and envelopes used in the Government offices, is now obtained from the Indian mills. The total quantity of paper made in 1895 was about 40 million lbs: ten years previously it was a little over 16 million lbs. The value of the outturn in 1895, is reported at over Rx. 600,000. The number of persons employed is 3,594.

There are a number of small paper works, for the manufacture of what is known as country paper, scattered through most provinces, but for these petty industries no statistical information is available.

XXVII.

BREWERIES.

[TABLES 1 TO 3, PAGE 420.]

The quantity of beer brewed during 1895 amounted to 6,238,877 gallons, of which more than half was bought by the Army Commissariat, the remainder being left for consumption by the civil population. The average purchases of the Commissariat for the last five years (1891-95) have amounted to about 2,908,000 gallons yearly, the total average production in the same period having been 5,494,000 gallons. The army therefore consumes about 53 per cent of the production and the civil population about 47 per cent. The quantity taken for the troops does not, however, represent the whole consumption of malt liquor by them, for they also consume imported beer to a substantial extent, though it is imported by the trade and no longer by Government.

The quantity of beer imported into India has averaged 2,908,406 gallons yearly in the last five years; and the quantity brewed in India in the same period has averaged, as noted above, 5,494,000 gallons, the local production being thus nearly double the quantity imported.

Twelve out of the 23 breweries are located at stations in the Himalayas from Murree to Darjeeling, and much of the beer is brewed there. A good deal is also brewed at Lucknow, Rawalpindi, Poona, Bangalore, at and near Ootacamund, and at Quetta and Mandalay. Last year the quantity brewed in the plains exceeded two million gallons, though in the beginning of the industry and for a considerable period thereafter it was supposed to be impossible to brew beer in the plains. The largest of the breweries is at Murree, where about 851,000 gallons were brewed last year. The next largest is at Poona, where the brewing of last year amounted to 757,000 gallons. More than one-third of the whole production is brewed in the Panjab.

The commencement of the industry dates from 1850 when a brewery was established at Masuri. This was followed by another at Kasauli in 1852. These were followed by the brewery at Murree in 1860 and at Simla in 1862. The capital employed in the industry (so far as it is known) is Rx. 170,000.

XXVIII.

COLLIERIES.

[TABLES 1 TO 3, PAGES 421 TO 423.]

In 1894 there were 109 collieries at work in Bengal, one in Madras, two in the Panjab, two in the Central Provinces, four in Assam, one in Burma, one in Central India, one in the Nizam's Territory, and two in Baluchistan, making 123 in all, against 96 in the preceding year, and 88 in 1892. The output from the Bengal mines was reported as 2,035,934 tons; 140,495 tons were raised from the Central Provinces collieries (Mohpani and Warora); 169,448 tons from the Assam collieries; 132,837 tons from Umeria (Central India); 66,467 tons from the Dandot and Bhaganwála collieries in the Panjab; 240,525 tons from the Singareni colliery in the Nizam's Territory; 21,498 tons from the Khost and Sharigh mines in Baluchistan; 12,111 tons from the Letkakpin mine in the Shwebo district in Burma; and 1,337 tons from the Rachagorapalli mine in the Godávari district in the Madras Presidency. The annual output in all India has been as follows in the last ten years:—

	Tons.		Tons.
1885	1,294,221	1890	2,168,521
1886	1,388,487	1891	2,328,577
1887	1,564,063	1892	2,537,696
1888	1,708,903	1893	2,562,001
1889	1,946,172	1894	2,820,652

The value of the output in 1894, calculated at the local wholesale selling prices, may be estimated at Rx. 1,031,038, making an average value of R3·7 per ton, against about Rx. 862,000 (R3·36 per ton) in the preceding year.

The imports of coal, coke, and patent fuel in 1894-95 amounted to 823,814 tons, valued at Rx. 1,468,964, the average value being R17·84 per ton, nearly five times the value of Indian coal. In the preceding year the imports were 555,280 tons, valued at Rx. 972,588 (R17·52 per ton).

The output of the mines in Bengal last year was about 72 per cent of the whole production, and that province receives but little imported coal, Bombay and Sind taking most of the imports. The distribution of the import is as follows in tons:—

	1890-91.	1891-92.	1892-93.	1893-94.	1894-95.
Bombay and Sind ...	687,200	621,030	541,160	461,912	696,063
Burma	36,599	48,085	27,814	19,450	35,449
Madras	50,818	45,044	66,380	65,805	82,664
Bengal	10,047	22,812	12,831	8,113	9,138

The cost of maritime transport for such cargo was so high in India until recently that it was not profitable to send Bengal coal by sea to the other provinces. There has, however, been a somewhat rapid change during the last few years in the conditions, and a substantial quantity is being supplied from Bengal by sea to the other provinces, as the subjoined figures show:—

Exports (in tons) by sea from Bengal to—

	BOMBAY.	SIND.	MADRAS.	BURMA.
1890-91	4,000	...	29,763	69,908
1891-92	...	...	52,270	70,145
1892-93	45,595	...	60,570	88,611
1893-94	81,739	3,700	57,996	98,884
1894-95	51,971	...	54,923	77,041

The total exports from Bengal to other provinces by sea in 1894-95 amounted to 183,935 tons. Bengal is also exporting rapidly increasing quantities by railway and river to other provinces and to Native States (Rajputana and Central India), the exports being:—

	Tons.
1890-91	245,345
1891-92	340,214
1892-93	364,405
1893-94	377,106
1894-95	420,563

Thus the exports from Bengal by land and sea represent nearly one-third of the production in that province.

In the last three years Burma consumed on an average more than three tons of Indian coal for every ton of imported coal, and Madras burns nearly as much Indian as imported coal, but Western India still finds it more advantageous to use imported coal. Indian coal is also being exported, though as yet on a small scale, to foreign countries (mainly to Ceylon), as will be seen from the following figures:—

	1890-91.	1891-92.	1892-93.	1893-94.	1894-95.
	Tons.	Tons.	Tons.	Tons.	Tons.
To Ceylon	15,158	1,151	13,484	28,145	47,920
„ Straits	5,900	2,100	3	14,792	5,277
„ Java	4,000	...	...	...	...
„ Aden	...	...	...	5,720	...
„ Mauritius	500	...	1,518	3,633	...
„ Other Countries ...	778	1,264	720	12	468
TOTAL ...	26,336	4,515	15,725	52,302	53,665

XXVIII—*continued.*

COLLIERIES—*continued.*

The Indian railways consume it in large and increasing quantities, the consumption in 1894 being about 38 per cent of the whole output of the mines, and the quantity of imported coal burnt by them has fallen to a low point:—

	1891. Tons.	1892. Tons.	1893. Tons.	1894. Tons.
Indian coal and coke	797,142	875,640	924,900	1,062,748
Imported coal	216,822	204,367	178,656	127,520

The total number of persons employed at the mines is given as 43,197.

XXIX.

LARGE INDUSTRIES NOT SEPARATELY TREATED.

[TABLES 1 AND 2, PAGES 424 TO 457.]

The table of details gives such particulars as are obtainable of most of such industries as are carried on upon an extensive scale, other than those for which separate tables have been given. It still lacks completeness even as regards large industries which ought to find a place in the list, and it does not and cannot include the many industries, such, for example, as weaving, which, though extensive in the aggregate, are practised on a small scale by men and women in their own houses or in small workshops.

Taking the headings in alphabetical order, the table includes:—

(1) *Bone-crushing mills.*—Six at Bombay, three in Bengal, one at Madras, one in Malabar, two at Coimbatore, one in South Canara, and one at Karachi.

(2) *Cement works.*—Only one cement work is reported, located in Madras.

(3) *Coffee works.*—These are reported to be 36 in number, all in Madras.

(4) *Cotton ginning, cleaning, and pressing mills.*—There is a great number of these in Madras, Bombay, Sind, Berar, the Central Provinces, Central India and Rajputana, the North-Western Provinces, Panjab, Bengal, and Burma.

(5) *Cotton spinning and weaving establishments not classed as mills.*—Seventeen mentioned, which are in the Madras Presidency, and several unenumerated in Bengal.

(6) *Cutch factories.*—One in Lower Burma and fifteen in Upper Burma. One also in Bengal.

(7) *Flour mills.*—There are 63 of these, but the return is defective.

(8) *Glass factory.*—One has been recently started near Calcutta for the manufacture of glass in accordance with European methods. There are various small glass-making establishments in other places, but when they do not use broken imported glass, they turn out articles of a rough and inferior class, though in some cases artistic in form and colour.

(9) *Ice factories.*—These are numerous, but the return is defective.

(10) *Indigo factories.*—There are a great number of these in Bengal and the North-Western Provinces, all owned by individuals singly or in partnership with others; but only three, two in Bengal and the other in the N.-W. Provinces, are managed on the joint-stock principle with limited liability. Great numbers are now owned and worked by natives, but these are still singly small factories. In the Madras Presidency also there are a great number of indigo factories, mostly small concerns. In the Panjab there are said to be 17 factories.

The table must be taken more as an indication of the extent of the industry than as a complete record.

(11) *Iron and brass foundries.*—These are numerous and scattered over Bombay, Sind, Madras, Bengal, the N.-W. Provinces, the Panjab, and Burma.

(12) *Jute presses.*—All these are in Bengal.

(13) *Lac factories.*—There are 38 of these at Mirzapur in the North-Western Provinces. The number in Bengal is not fully stated; they are numerous, and, excepting the factory at Cossipore near Calcutta, in most cases small.

(14) *Mineral and aërated water manufactories.*—These are numerous and scattered in every province; so far as information has been received there are 76 in Bengal, 35 in Madras, 71 in Bombay, 30 in Sind, 66 in Burma, 87 in the Panjab, 44 in the N.-W. Provinces and Oudh, 20 in the Central Provinces, and 3 in Rajputana.

(15) *Mines (other than coal mines).*—Incomplete. The mica mines in Hazaribagh (Bengal), the ruby and steatite mines of Upper Burma, the tin mines in Mergui, and the gold mines in Madras and Mysore, are alone reported.

(16) *Oil mills and wells.*—Incomplete. The expression of oil is largely carried on in various places, though the mills in most cases are small. The list includes the petroleum wells in Upper and Lower Burma, the only wells as yet worked on a large scale, the wells in Assam, and the petroleum refineries at work at Rangoon and at Lakhimpur in Assam.

XXIX—*continued.*

LARGE INDUSTRIES NOT SEPARATELY TREATED—*continued.*

(17) *Potteries.*—This head includes the Raniganj and Jubbulpore pottery works belonging to Messrs. Burn & Co. of Calcutta, sixteen small concerns in Burma, ten in the Panjab, and two in Bombay. The industry is very widespread, however, and is increasing. Art pottery is produced in Bombay and other places, and native works turn out characteristic ware at Delhi, Multan, Aligarh, and elsewhere, though it cannot be said as yet that the work is done on a large scale.

(18) *Quarries.*—Two quarries are entered, that of the Rajmahal Stone Company with a capital of Rx. 25,000, and the Kangra Valley Slate Quarry Company with a capital of Rx. 12,000. There were 10 lime quarries in Assam, of which two were not worked during the year.

(19) *Rice mills.*—Of these there are 64 in Lower Burma, one in Upper Burma, two in Bengal, one in Godavari (the Coringa Company), one in Tanjore, twelve in Kistna, and two at Balsar in the Bombay Presidency.

(20) *Rope works.*—Twelve are entered, of which five in the Madras Presidency, six in Bengal, all near Calcutta, and one in Bombay. The works near Calcutta are owned and managed by Europeans, and produce rope and cordage fit for all marine and other uses. Native rope works are very common, but they are small and the rope inferior.

(21) *Saltpetre refineries.*—There are hundreds of these, worked by natives on a small scale, in Bihar and the North-Western Provinces, and about a dozen in and around Calcutta; one of the latter owned and worked by a European firm. The tables do not include any of the numerous saltpetre factories in Bombay, Burma, and the North-Western Provinces.

(22) *Silk filatures.*—With the exception of one in the Dehra Dun, these are all in Bengal.

(23) *Silk mills.*—A silk mill at Bombay, and another in Calcutta, and various silk-weaving factories in Bengal. These latter to a large extent weave tasar silk, are owned and managed by natives, and do not employ European machinery and apparatus. The fabrics woven in the two mills are mainly intended for Burmese consumption.

(24) *Soap factories.*—Three at Meerut. One of these makes very good toilet soaps. There are many small native soap-works in Bengal and other provinces, but the soap manufactured is crude and inferior.

(25) *Sugar factories.*—Five in Madras; in Bengal the large Cossipore factory, with a capital of Rx. 100,000, and numerous small factories, number not stated; in the North-Western Provinces, one—the extensive Rosa factory at Shahjahanpur, with a capital of Rx. 160,000; and one in the Panjab.

(26) *Tanneries.*—Sixty-three of these are returned, of which 48 are in Madras and 8 in Sind, one in Bombay, one at Calcutta, two at Cawnpore, one at Agra, one in Rangoon, and one in Ajmere. The leather works at Cawnpore are important and of large dimensions.

(27) *Tile manufactories.*—Thirty-five, of which 22 in the Madras Presidency, one in Coorg, eleven in the Panjab and one in Assam.

(28) *Timber mills.*—Of these there are 71 altogether, the majority of them in Burma.

(29) *Tobacco farms and factories.*—The only entry under this head is the plantation belonging to Messrs. Begg, Dunlop & Co. at Poosa, where tobacco is grown, cured, and manufactured after the American methods. Twenty-five factories for the manufacture of cigars have been reported in Trichinopoly, one in Madras, nine in Madura and five in the Godavari district.

XXX.

JOINT STOCK COMPANIES.

[TABLES 1 TO 3, PAGES 458 TO 495.]

The total number of companies which have been registered in India under the law amounts to 2,807. Of these, 1,204 were working at the end of 1894-95, the others having either wound up or otherwise discontinued or never commenced business, so that about 57 per cent of the companies started have been failures.

In 1885-86 the number of companies at work was 806, with a paid-up capital of Rx. 21,002,568. In 1894-95 the number of companies was 1,204, and their paid-up capital Rx. 27,668,773, making an increase in the decade of 49·38 per cent in the number of companies and 31·74 per cent in the capital. The increase in capital during the year was Rx. 158,714.

The largest part—Rx. 12,842,555 paid-up—of the aggregate capital is invested in mills and presses chiefly for working or pressing cotton, jute, wool, and silk. This capital has increased about 38 per cent in the last ten years. A great number of the mills and presses are registered in Bombay, that presidency representing under this head a paid-up capital of Rx. 8,493,002, most of it invested in cotton mills and presses. A sum of Rx. 2,691,748 represents the paid-up capital invested in mills and presses registered in Bengal, their working being mainly limited to jute.

In tea, coffee, and other plantations, Rx. 3,812,279 of paid-up capital are invested, of which Rx. 3,633,133 are held in Bengal, most of the tea companies being registered in Calcutta.

XXX—*continued.*

JOINT STOCK COMPANIES—*continued.*

The paid-up capital invested in banking or loan companies amounts to Rx. 4,072,790, of which Rx. 2,381,132 are in companies registered in Bengal and Rx. 998,748 in Madras.

Trading companies have a paid-up capital of Rx. 3,740,774, of which Rx. 874,546 are invested in coasting and river steamer companies, Rx. 820,675 in railways and tramways, and Rx. 2,045,553 are owned by "merchants and traders," a considerable proportion of this latter sum being invested in retail shops and stores, to which the principle of limited liability has been somewhat extensively applied in India.

The capital of mining and quarrying companies is Rx. 1,801,163 paid-up, of which Rx. 1,581,860 are invested in companies registered in Bengal, about Rx. 760,955 and Rx. 697,000 respectively being invested in coal-mining and gold-mining companies in that province.

The other industries individually represent much smaller sums; thus ice-making employed Rx. 172,804 paid-up, chiefly in Bombay and Bengal; breweries, Rx. 169,540 paid-up, all in the Panjab and the North-Western Provinces and Oudh.

Table No. 3, on page 495, shews the progress made since 1881-82 in the development of joint-stock enterprise under the principal heads.

The provincial distribution of paid-up capital invested in joint-stock enterprise, and the ratio of the capital in each province in 1894-95 to the whole, are shewn below. The two provinces of Bengal and Bombay have nearly 85 per cent of the whole capital :—

	1885-86. Rx.	1894-95. Rx.	Ratio of provincial to total capital.
Bengal	9,318,816	12,537,148	45·3 per cent.
Bombay	8,795,322	10,913,857	39·5 „
Madras	1,190,798	1,922,616	6·9 „
N.-W. P. and Oudh	859,836	931,802	3·4 „
Panjab	404,529	478,100	1·7 „
Burma	124,866	171,974	0·6 „
Mysore	225,621	369,056	1·3 „
Central Provinces	82,780	264,607	1·0 „
Others	...	79,613	0·3 „
TOTAL ...	21,002,568	27,668,773	

XXXI.

FOREIGN TRADE AND SHIPPING.

[TABLES 1 TO 21, PAGES 497 TO 551.]

These tables shew, for various periods extending in many cases back to 1834-35, the progress of the foreign sea-borne trade of India, for the whole country, for each province separately, and for the principal articles of trade and principal foreign countries; also the progress of shipping. They supplement the annual accounts of the foreign trade which exhibit the progress of the trade for only five years. As the trade of India is fully reviewed separately every year, it is not necessary to offer a summary of these tables here. The average rate of increase in the trade (merchandise and treasure) during the last thirty-four years is shewn below, the period being divided into six periods of five years each and four separate years :—

YEARS.	Average annual Imports.	Average annual Exports.	Average annual Imports and Exports.	Increase per cent of Imports.	Increase per cent of Exports.	Increase per cent of Imports and Exports.
	Rx.	Rx.	Rx.			
1861-62 to 1865-66	47,238,549	57,998,789	105,237,338	39·73	95·44	65·77
1866-67 to 1870-71	45,539,828	52,453,185	97,993,013	—3·60	—9·56	—6·88

* Compared with figures of 1890-91.
† „ „ „ 1891-92.
‡ „ „ „ 1892-93.
§ „ „ „ 1893-94.

The second quinquennium (1866-67 to 1870-71) included some years of intense famine, and it also followed immediately on a period of extraordinary inflation in values caused by the sudden demand for cotton from India which arose out of the stoppage of supplies from the United States during the war of secession. These circumstances account for the restriction in trade values during that quinquennium.

* Exclusive of 15 Feudatory States, the area of which is 29,435 square miles and contains a population of 2,160,511.

NOTE.—The figures of population in this table have been furnished by Local Governments and Administrations, and differ slightly under Upper Burma an increase of 104,365 are due to revised classification of divisions. Under Assam the difference (2,044) is due to the N.-W. Provinces the decrease of 294 is due to the transfer of certain villages from Ghazipur to Shahabad in Bengal; under the Panjab the Estates in Khandesh.

Abolished, see note (d) below.

* Except salt exported to places in Bengal and the Madras Presidency.

(a) The excise system was introduced into the Panjab in October 1849 in March of which year the province was annexed.

(b) The Internal Branch was organized under Act XXXI of 1861, but the figures for 1861-62 to 1865-66 inclusive are not available.

(c) Not available for the years previous to 1871-72. From 1871-72 the quantity of imported salt only is given. The quantity of locally manufactured salt cannot be given, rough estimates only being available.

(d) In February 1870, the Inland Customs Department assumed charge of the Sambhar Lake and in October 1878 of the Rajputana Salt Sources which previous to that year had been under the control of Native States. The whole Inland Customs Department has now become the Department of Salt Revenue in Northern India and is administered by the Commissioner, Northern India Salt Revenue.

No. 5.

TOTAL NET REVENUE in TENS of RUPEES (Rx.) derived from SALT in each PROVINCE in each year from 1851-52 to 1894-95.

NOTE.—This table includes the duty actually collected in each Province, whether the Salt was consumed there or not.

Previous to 7th July 1883 the rate of duty was two, three, or four annas a maund.

Three annas a maund for Lower Burma from 5th August 1875.
One per cent *ad valorem* for Upper Burma.

NOTE.—Selling price means the price at which salt was sold by Government exclusive of duty.

* Per Lahori maund, which is equivalent to 102⅔ lbs.

† These are the special rates charged at Ganjam and Ichapur (Surla) from 1874 to 1878.

‡ The selling price represents the general selling price of Government salt only. In one or two factories Government salt is sold at 4 annas and in one factory at 2 annas. The price of excise salt varies and averages from 4 to 5 annas per Indian maund.

¶ Four annas is the special rate at Ganjam and two annas at Pandraka. The price of excise salt varies and averages from 2 annas 5·9 pies to 4 annas 6·8 pies per Indian maund.

§ Four annas is the special rate at Ganjam and two annas at Pandraka and Vaippar. The price of excise salt varies and averages from 2 annas 6·6 pies to 5 annas 2 pies per Indian maund.

(*a*) Four annas is the special rate at Ganjam and two annas at Pandraka and Vaippar and temporarily at Chinna Ganjam. The price of excise salt varies and averages from two annas 6·46 pies to 5 annas 4·66 pies per Indian maund.

(*b*) Four annas is the special rate at Ganjam and two annas at Pandraka and temporarily at Chinna Ganjam. Besides these three fixed rates, certain other rates are also prevalent in some Government factories and extensions, being those realized at auction sales or fixed arbitrarily according to the nature and condition of the stocks. The price of excise salt varies and averages from 2 annas 5·03 pies to 4 annas 8·18 pies per Indian maund.

No. 7.

NOTE.—The years 1854-55 to 1863-64 are salt years (from 1st October to 30th September), and those from 1864-65 are official years and figures in the final column for years previous to 1863-64 include Government salt.

(*a*) Inclusive of 21 maunds received from shipboard for bond in Salkea private golahs.
(*b*) Inclusive of maunds 46 and 25 received from shipboard and maunds 448 and 112 found in excess in Salkea golahs.
(*c*) Inclusive of maunds 29, 62 and 263 respectively found in excess in the golahs.
(*d*) Includes the quantity taken over by Government from the old excise licensee of the Sartha Factory and that produced in the Tua Factory.
(*e*) Includes Government Salt.
(*f*) Includes Government Salt and a quantity of 8 and 3 maunds respectively gained by weighment.

No. 8.

Government and Private Salt (in Indian maunds) sold in BENGAL for HOME and INLAND CONSUMPTION, amount of SALT REVENUE realised, also average wholesale selling price of LIVERPOOL SALT and rate of duty in each year from 1841-42 to 1894-95.

YEARS.	SALES OF SALT.				Total proceeds realised.	Annual average Calcutta price per 100 maunds of Liverpool salt, excluding duty. *	Rate of duty per maund on salt imported by sea.
	Government salt.	PRIVATE SALT. Imported by sea.	PRIVATE SALT. Made in excise works.	TOTAL.

No information available.

Not available.

NOTE.—The figures from 1841-42 to 1854-55 have been taken from Mr. Plowden's Salt Report; those from 1855-56 to 1864-65 from Salt Administration Report for 1864-65, and the next three years' figures from the Administration Report for 1867-68.

* True average for the years previous to 1880-81 is probably about R2 lower than the stated average.

(*a*) The excise system which had been discontinued in 1840 was resumed in 1847.

(*b*) Includes salt manufactured at the Government Factories at Tua and Gurubai in Puri.

No. 9.

QUANTITY (in INDIAN MAUNDS) of SALT PASSED into the INTERIOR of the COUNTRY from CALCUTTA or SULKEA by RAIL and WATER and the QUANTITY SUPPLIED from the BENGAL PRESIDENCY at COST PRICE, i.e., *free of DUTY, in each year from 1855-56 to 1894-95.*

NOTE.—The above mentioned Salt sub-divisions comprise the following land revenue maritime districts:—
Chatrapur.—Part of the Ganjam district.
Chicacole.—Remainder of the Ganjam district and the Vizagapatam district.
Cocanada.—The Godavari district.
Masulipatam.—The Kistna district, except a small portion comprised in the Chicma Ganjam factory.
Nellore.—Remainder of the Kistna district and the greater part of the Nellore district.
Chingleput.—Remainder of the Nellore district, Madras, part of the Chingleput district, and a very small portion of the South Arcot district.
Negapatam.—Remainder of the South Arcot district and the whole of the Tanjore district.
Tinnevelly.—The Madura and Tinnevelly districts.
Calicut.—South Canara and Malabar districts.

* Special rates at certain factories.
† The Cocanada sub-division was created in October 1891.

(a) The figures given in this statement do not include imports.
(b) Includes also the revenue of Orissa.

NOTE.—The quantity of total sales is exclusive of 5 per cent wastage allowed on wholesale transactions.

The figures in columns 7 and 8 (total sales and gross revenue) are with one exception exclusive of dutiable salt imported on private account and inclusive of (1) salt manufactured and sold under the excise system, (2) supplied to the French Government and for fish-curing, etc., as detailed in table 12, (3) exported by sea. The exception is duty on salt imported on private account which is included under column 8, although the quantity is excluded from columns as above stated.

The figures in column 8 also exclude duty remaining unrealised at the close of the year under the credit system, but include realisations of previous year's outstandings and miscellaneous receipts.

(a) The years previous to 1878-79 are fasli years (1st July to 30th June), and those from 1878-79 official years.

(b) Include collections on account of earth salt manufacture in the Ceded Districts and Kurnool, where it was permitted up to January 1879. The charges from 1874-75 also include the compensation paid for *closing* the earth salt works in Madras.

No. 15.

DISTRIBUTION (in INDIAN MAUNDS) of TOTAL SALES of SALT and QUANTITY on hand in the MADRAS PRESIDENCY at the close of each year from 1822-23 to 1894-95.

YEARS. (a)	Home and inland consumption.	Sold to the French Government.	Exported by sea.	Wastage.	TOTAL.*	Balance of Salt on hand at end of the year.

NOTE.—The quantity shown under Home and Inland Consumption from the year 1873-74 is exclusive of 5 per cent wastage allowed on wholesale transactions, whereas the figures for the previous years include it. The quantity given from the year 1822-23 to 1873-74 is inclusive of salt supplied to the Amindivi islands.

* This total differs from the "Total of Sales" in the previous account only by the quantity of salt in the column for "Wastage."

From the year 1880-81 the figures above are exclusive of salt imported on private account, but inclusive of salt manufactured under the excise system.

(*a*) The years previous to 1877-78 are fasli years (1st July to 30th June) and those from 1878-79 official years.

(*b*) Excludes 3,999 and 28,749 maunds of salt destroyed under condition 14 of the excise license.

No. 16.

RATE of DUTY on SALT, PROCEEDS REALISED, CHARGES of COLLECTION, NET SALT REVENUE, and QUANTITY of SALT which paid FULL DUTY, in each year from 1858-59 to 1894-95 distinguishing SALT of LOCAL MANUFACTURE from IMPORTED SALT, and showing the QUANTITY EXPORTED by SEA to places beyond the BOMBAY PRESIDENCY.

NOTE.—Quantities are in Indian Maunds.

YEARS.	Rate of duty per Indian Maund.	QUANTITY OF SALT WHICH PAID FULL DUTY.							QUANTITY OF SALT SUPPLIED FREE OR ON A DUTY OF 3 PIES, OR 1 ANNA OR 2½ ANNAS PER MAUND.		GRAND TOTAL.	Proceeds realised. (a)	Charges of collection.	Net Revenue.
		LOCAL SALT.			IMPORTED SALT.			Total quantity of Salt which paid duty.						
		For Home Consumption.	For inland consumption, i.e., across the frontier into other Presidencies and foreign territory.	TOTAL.	By Sea.	By Land.	TOTAL.		Exported by sea to Places beyond the Presidency.*	Supplied to other Governments, Native States and for other purposes within the Presidency.

NOTE.—The figures in column 2 Imports, include in some cases salt on which no duty was collected, as it was paid at the place of exportation.

* The proceeds for 1864-65 amounted to ₹3,682 only; and ₹11,746, being the amount of duty on salt exported to Calcutta in the previous year, was recovered and included in this year (1864-65).

† Exports to Bombay and other ports are included in the Accounts relating thereto.

(*a*) Includes maunds 1,000 exported to the Upper Sind Frontier, which is not shown under Locally made salt.

(*b*) Includes maunds 37 exported to Hyderabad, which is not shown under Locally made salt, but does not include maunds 865, shown under Locally made salt.

(*c*) Includes Rx. 2,081, 2,307, 2,602, and 2,199 respectively, being the cost of the Preventive force.

(*d*) From 1880-81 no salt was manufactured in the province of Sind except at the Moach, Sarun and Dilyar salt works.

(*e*) Supplied to Kelat.

(*f*) Supplied to Kelat and Bahawalpur.

No. 20.

QUANTITIES (in INDIAN MAUNDS) of SALT which paid DUTY in each PROVINCIAL SECTION under the COMMISSIONER of NORTHERN INDIA SALT REVENUE and the QUANTITY supplied at cost price, i.e., free of DUTY to NATIVE STATES, in each year from 1849-50 to 1894-95.

* There is no record of the actual number of chests exported from Bombay during the years 1830-31 to 1834-35, and the number of chests for those years has been calculated from the amount of pass-duty collected in each year.

† In the years so marked, calculations similar to the above are not practicable, two rates of duty having existed, while the actual number of chests is not upon record.

No. 17.

INDIAN OPIUM imported into SIAM from 1869 to 1895.

Years.	Number of chests imported.	Years.	Number of chests imported.	Years.	Number of chests imported.
1869	402	1878	675	1887	968
1870	316	1879	822	1888	993
1871	652	1880	798	1889	1,035
1872	653	1881	785	1890	1,440
1873	580	1882	831	1891	1,200
1874	693	1883	704	1892	500
1875	657	1884	669	1893	791
1876	788	1885	771	1894	1,125
1877	649	1886	664	1895	1,001

Note.—There is much opium-smuggling, and this statement, therefore, shews a somewhat smaller quantity than is actually imported. All the opium imported into Siam is believed to be Benares opium brought chiefly from Singapore.

CUSTOMS REVENUE.

No. 1.

GROSS AMOUNT of CUSTOMS DUTY collected in BRITISH INDIA, on IMPORTED MERCHANDISE subject to duty, in each official year from 1884-85 to 1894-95.

[NOTE.—In the Financial Accounts the duty collected on Salt is entered under "Salt," not under "Customs." In this Volume it is included in the Table of the Indian Salt Revenue. See Part II.]

Exception I.—Articles falling under the 5th, 6th, 8th, 9th or 10th head of the foregoing list, when they appertain to a firearm falling under the 1st or 3rd head, and are fitted into the same case with such firearm, are free.							
Exception II.—The following are also free, namely :—							
(*a*) Arms forming part of the regular equipment of an officer entitled to wear diplomatic, military, naval or police uniform.							
(*b*) A sword, a revolver, or a pair of pistols, when accompanying an officer of Her Majesty's Regular Forces, or a commissioned officer of a volunteer corps, or certified by the commandant of the corps to which such officer belongs, or, in the case of an officer not attached to any corps, by the officer commanding the station or district in which such officer is serving, to be imported by the officer for the purposes of his equipment.							
(*c*) Swords and revolvers which are certified by an Inspector-General of Police to be part of the ordinary equipment of members of the Police force under his charge.							
(*d*) Swords forming part of the equipment of native commissioned officers of Her Majesty's Army.							
(*e*) Swords for presentation as army or volunteer prizes.							
(*f*) Arms, ammunition and military stores imported with the sanction of the Government of India for the use of any portion of the military forces of a Native State in India which may be maintained and organised for Imperial Service.							
(*g*) Morris tubes and patent ammunition when imported by officers commanding British and Native regiments or volunteer corps, for the instruction of their men.							

* The following articles under this head were exempted from duty :—

Arms which, having paid duty at Aden on import into that Settlement, are subsequently within three years imported into any Customs port of British India. Bows and arrows. Bullets, bird-shot, gun-wards, and wire cartridges.(*a*) Bullet-moulds. Morris tubes and patent ammunition when imported by officers commanding British and Native regiments or volunteer corps for the instruction of their men. Ornamental arms possessing antiquarian value, provided the chief Customs authority is satisfied in each case that the arms are practically unserviceable, and that weapons intended for offensive or defensive purposes are not imported under cover of the exemption. Swords imported for presentation as army or volunteer prizes.	Notification No. 1864, dated 12th April 1889.
A sword, a revolver, or a pair of pistols when accompanying an officer of Her Majesty's Regular Forces or a commissioned officer of a volunteer corps or certified by the commandant of the corps to which such officer belongs, or, in the case of an officer not attached to any corps, by the officer commanding the station or district in which such officer is serving, to be imported by the officer for the purposes of his equipment.	Notification No. 1864, dated 12th April 1889, as amended by Notification No. 1908, dated 8th May 1891.
Dynamite, tonite, and detonators (*c*)	Notification No. 2139, dated 30th April 1889.
Swords imported as part of the equipment of Native commissioned officers of Her Majesty's Army.	Notification No. 302 S., dated 2nd Dec. 1890.
Swords and revolvers imported into British India, which are certified by an Inspector General of Police to be part of the ordinary equipment of members of the Police Force under his charge.	Notification No. 3521, dated 19th Aug. 1891.
Arms, ammunition, and military stores imported with the sanction of the Government of India for Imperial Service Troops of Native States.	Notification No. 3028 S., dated 21st July 1892.

(*a*) Bullets, bird-short, gun-wads, and wire cartridges were again subjected to duty by Act VIII of 1894.
(*b*) These rates were fixed by the Indian Arms Act, XI of 1878.
(*c*) Dynamite, tonite, and detonators were again subjected to duty by Act VIII of 1894 and classed as "Explosives" under Chemical Products and Preparations.

No. 5—*continued.*

RATES of CUSTOMS DUTY imposed on IMPORTS into BRITISH INDIA under various ACTS from 1887 to February 1896—continued.

N. B.—The form of stamp statistics was revised with effect from the year 1882-83.

* Exclusive of the Hyderabad Assigned Districts, as to which see table No. 42.

† This sum includes Rx. 9,586 for Madras for discount under all heads, but not distributed in the original returns.

‡ Includes Rx. 10,739, Rx. 12,576 and Rx. 12,757 in 1864-65, 1865-66 and 1866-67 respectively, on account of total charges for discount paid in Madras.

§ Exclusive of the cost of general supervision.

(*a*) See note † in table No. 18.

* Exclusive of the Hyderabad Assigned Districts.
† Exclusive of the cost of general supervision.
‡ The large decrease (chiefly in Bengal) was due to the introduction of a new classification. The figures for the years 1882-83 and 1883-84 include receipts on account of impressed stamps and impressed labels.

No. 4.

DETAILS of the COST of GENERAL SUPERVISION of the STAMP REVENUE in INDIA from 1882-83 to 1894-95.*

YEARS.	Pay of Superintendent.	Establishment.	Contingencies.	Service postage stamps.	TOTAL.
	Rx.	*Rx.*	*Rx.*	*Rx.*	*Rx.*
1882-83	6,397	8,813	1,796	448	17,454
1883-84	6,467	9,180	2,351	672	18,670

1894-95	3,271	6,467	2,257	369	12,364

* *N.B.*—The cost of general supervision in Assam, and N.-W. Provinces and Oudh, was charged to the head "Stamps" down to 1891-92. From 1892-93 the sum is debited to the head "General Administration" according to the terms laid down in the Provincial contract rules of 1892-93. In the Central Provinces, such charges have ceased from 1886-87 and in the Panjab from 1889-90.

* Exclusive of the cost of general supervision.

† The sums of Rx. 251 and Rx. 6 were realised in 1886-87 and 1887-88 from the Ajmere-Merwara districts under the system of granting copies of judicial documents on stamped folios, which, however, was found unsuitable to local conditions and abandoned in favour of the system formerly in force.

* From March 1876 the figures do not include gold coin.

† Includes Rx. 187,800 on account of draft account.

‡ The Coin Reserve at Allahabad is Rs. 20 less than its gross circulation, *i.e.*, by the amount of a note tendered and paid after it had been paid by authority under bond of indemnity.

§ Less Rx. 396, being the amount of Calcutta-Nágpur coin held at Bombay.

‖ From 1884, exclusive of Burma.

(*a*) Includes small silver coin Rx. 101.950 in 1883-84, Rx. 81,590 in 1884-85, Rx. 42,970 in 1885-86, Rx. 36,240 in 1886-87, Rx. 59,540 in 1887-88, Rx. 92,480 in 1888-89, Rx. 149,600 in 1889-90, Rx. 40,400 in 1890-91, Rx. 2,000 in 1891-92, and Rx. 2,700 in 1892-93.

No. 6—*continued.*

(a) Average for 10 months, the Currency office having been opened at Karáchi in June 1865.
(b) Average for 7 months, the Currency office having been opened at Akola in September 1868.

NOTE.—The figures in this table show the gross circulation, less the notes of the several circles in the Bombay Presidency which may have been cashed in other circles in the same presidency. From March 1862 to August 1864 there was but one (the Bombay) circle in the Bombay Presidency. The Nágpur Circle was attached to the Bengal Presidency up to July 1867, and its circulation up to that month is included in the totals for the Bengal Presidency, although for convenience of arrangement the circulation of the Nágpur Circle is shown from September 1864 in this table.

No. 9—*continued.*

TABLE SHOWING OUTTURN OF SILVER BULLION OR SPECIE REMITTANCE FROM ENGLAND TO INDIA.

EXPLANATORY REMARKS.

The calculations used in the preparation of this table are as follows:—

A.—To the cost of an ounce troy of standard silver in London, 1 per cent is added for freight and charges for remitting, and to the total cost ⅛ per cent is added as interest for the time taken by a bullion remittance in excess of the time occupied by a remittance by bill. This sum is divided by the mint outturn of an ounce of fine silver bullion received into the mint after cutting, as given below, and the quotient, showing the cost of a Government rupee in India in pence, is entered in column A:—

One ounce troy of English standard silver	=	2·6909
Mint duty and melting charge at Rs. 21 per mille	=	·0565
NET VALUE		2·6344
Mint loss in melting at ·25 per mille	=	·0007
MINT NET OUTTURN		2·6337

B.—The rates in this column are based on the same data as in A, except that ½ per cent is added as interest.

C.—The rates in this column are based on the transit charges being 1¼ per cent, namely, freight ½ per cent, insurance ½ per cent, boxes, packing, &c., ⅛ per cent, brokerage ⅛ per cent, interest at ⅛ per cent. The mint outturn of an ounce of fine silver bullion is Rs. 2·6337.

D.—The rates in this column are based on the same data as in C, except that interest is taken at ½ per cent instead of ⅛ per cent.

DATA FOR CALCULATIONS.

English standard $\frac{37}{40}$th fine silver.

Indian standard $\frac{11}{12}$th ditto.

1 ounce troy = 2⅔ tolas.

Charges in England.

Freight, insurance, boxes, packing, brokerage, &c., 1 to 1¼ per cent.

Interest is calculated at 6 per cent per annum on the time taken by a bullion remittance in excess of the time occupied by a remittance by bill. This excess is calculated at 7 and 28 days, and the interest for the time may be approximately taken at ⅛ and ½ per cent, respectively.

Charges in India.

Mint duty = 2 per cent.

Mint melting charge = 1 per mille.

Loss in melting silver bullion of inferior quality = ·25 per mille.

No. 20—*continued.*

Table showing OUTTURN of SILVER BULLION or SPECIE REMITTANCE from ENGLAND to INDIA; interest calculated at $\frac{1}{8}$ and $\frac{1}{2}$ per cent for 7 and 28 days, respectively.

LINES OF POSTAL COMMUNICATION UNDER THE NEW CONTRACT WITH THE P. & O. COMPANY.

Sectional lines.	Annual subsidy to be paid under the contract.
Brindisi and Aden	£265,000†
Aden and Bombay	
Aden and Ceylon	
Ceylon and Straits	
Ceylon and China	

† Of this amount the share to be borne by India was fixed at £40,000 a year. In consequence of the abolition of sea postage on letters and post cards from the 1st January 1891, the share was increased by £19,900, and it was further increased by £700 in consequence of the abolition of sea postage on packets from the 1st January 1892. The annual payment now made by India amounts to £60,600.

No. 4.

* Includes Rx. 216,466, being the amount of difference between official postage and steam postage due by the London Post Office, for which no details for each Presidency and Province are available.

† Included in the Panjab. ‡ See note marked † in Table No. 14. § Abolished from 1st July 1894.

NOTE.—The amount of telegraph message revenue for all India in each year from 1870-71 to 1891-92 was Rx. 21, 104, 90, 147, 192, 390, 329, 422, 592, 700, 977, 541, 627, 2,537, 21,150, 37,805, 48,382, 58,887, 70,234, 80,045, 90,749, and 106,258, respectively. These have been deducted from the receipts of *Bengal* only as prior to 1892-93 no separate adjustments for each postal circle were made. From 1892-93 such sums are deducted from the several postal circles instead of from *Bengal* alone.

6.

PRESIDENCY and PROVINCE in each year, from 1853-54 to 1894-95.

* The values shewn here include postage stamps used for telegrams tendered at combined offices and other post offices, and these are excluded from the accounts of postal revenue. Hence the difference between the figures of sales of ordinary postage stamps in table No. 1 and the figures in this table.

† Including discount on postage stamps used for telegrams.

No. 15.

NUMBER of SERVICE POSTAGE STAMPS of each DENOMINATION sold by the POSTAL DEPARTMENT, and the Total GROSS VALUE realised, from 1866-67 to 1894-95.

*Excluding charges for stationery and contingencies. † At 3¾ per cent from 1867-68, at 4⅓ per cent from 1st January 1880 to 31st May 1881, at 3¾ per cent until the end of 1893-94, and at 3½ per cent from 1894-95. ‡ Approximate. § Difference 50 drawn in 1894-95.

(*a*) The differences between the balances entered in this column under Calcutta and the corresponding amounts in Table No. 1 for 1880-81 and previous years are due to the omission from the latter of interest credited to deposits.

(*b*) The differences between the balances shewn under Madras and the corresponding amounts in Table No. 1 for 1888-89 and previous years are due to corrections in accounts and also to the inclusion in Table No. 1 from 1882-83 of the balances of "Dead Accounts."

2.

ALLOWANCE paid for their MANAGEMENT, from 1867-68 to 1894-95.

† Includes transactions of State Railway Provident Institutions—1879-80.

Viz.—Number of depositors ... 568
Amount of deposits ... Rx. 780
„ interest ... „ 3

(*a*) These banks were amalgamated with the Post Office Banks in 1886-87. The small figures in 1886-87 are on account of an unadjusted difference in the Chittagong Bank.

N.B.—The differences between the balances entered in this account and the corresponding amount in table No. 1 are due to the omission in the former of interest on dead and closed accounts.

No. 3—*continued.*

(a) Included with the Great Indian Peninsula railway.
(b) Including the Amritsar-Pathánkot and the Rájpura-Bhátinda railways.
(c) Including the Eastern Bengal (state) railway metre and special gauge sections.—See No. XLVII.
(d) Including the Dhond-Manmád, the Khámgaon, the Amráoti and the Bhopal-Itársi railways.
(e) Included with the North Western (state) railway.
(f) Included with the Bhopal-Itársi (Native state section).
(g) Included with the Nizam's Guaranteed State railway.
(h) Including the Dhond-Manmád, the Khámgaon and the Amráoti railways.
(i) Including the Bhopal-Itársi (British section).
(j) Including the Bezwada extension.
(k) From 13th October to 31st December 1889.
(l) Including the Southern Mahratta (Mysore section).
(m) Included with the Southern Mahratta railway.
(n) Including the Amritsar-Pathánkot and the Jammu and Kashmir railways.
(o) Including branch lines worked.
(p) There is no passenger traffic on this railway.
(q) Including the Wardha Coal, the Dhond-Manmád, the Khámgaon and the Amráoti railways.
(r) Included with the East Indian railway.
(s) Including figures of the Southern Mahratta (Mysore section) the Kolhápur and the Mysore-Nanjangúd railways.
(t) Including the Bhopal-Itársi (Native state section).
(u) Included with the Indian Midland railway.
(v) Including the Guntakal-Mysore frontier, the Southern Mahratta (Mysore section), the Kolhápur, the Yesvantpur-Mysore frontier, and Mysore-Nanjangúd railways.
(w) For the second-half of 1893 only, the figures for the first-half are included with those of the Rajputana-Malwa railway.
(x) Including the Bezwada extension and the Bezwada-Godávari section of the East Coast (state) railway.
(y) For the first-half of 1894 only, the figures for the second-half are included with those of the Rajputana-Malwa railway.
(z) Including the Godhra-Rutlam railway.

* Fractions of less value than ⅛ have been omitted.

† From 1858-59 to 1860-61 inclusive, the Home Treasury was open at all times for the sale of bills on India, at rates altered from time to time by advertisement: consequent on the mutiny, it was necessary to refrain from drawing on India, and exchange was raised to a prohibitory rate.

No. 1—*continued.*

AMOUNT of BILLS drawn by the HOME AUTHORITIES on CALCUTTA, MADRAS, and BOMBAY, with the drawing rates; the PAYMENT of RAILWAY CAPITAL into the HOME TREASURY, less WITHDRAWALS in ENGLAND; and the AMOUNTS borrowed in ENGLAND, in each year from 1834-35 to 1894-95 —continued.

* The exact amount is £3-18-6·99, but for convenience £3-18-7 has been adopted.

† The quotations per tola of English gold bars shown in the Bombay Exchange Price-Current from February 1862 to June 1864 are stated to be of 99½ touch. The touch is not given in later quotations, but it is assumed to be the same.

2.

NOTE (1).—Throughout this series, with the exception of Table 14, the figures for Merchandise and Treasure include the Imports and Exports on account of Government.

(2).—For the years 1870-71 to 1873-74, revised figures have been included in all the tables in this series for Government treasure, and in Tables Nos. 1 and 2 for Government stores only. As corrected details in regard to articles and countries for Government stores are not available, the revision could not be carried out in the remaining tables, in which the totals of Merchandise for these years will consequently not be found to agree with those in Tables Nos. 1 and 2.

(3).—The figures down to 1852-53 are exclusive of those of subordinate ports of Bengal and Bombay.

(4).—The figures in this series to 1865-66 were taken from returns presented to Parliament. From 1866-67 they have been taken from returns furnished by Local Governments.

No.

TOTAL VALUE for each PRESIDENCY and PROVINCE of IMPORTS and EXPORTS of MERCHANDISE

NOTE.—1. Throughout this series the figures include the value of Gold and Silver imported and exported on account of Government.
2. Down to 1852-53, figures of subordinate ports in Bengal and Bombay are not included. From 1846-47 to 1863-64, the details of Gold and Silver do not exactly add to the totals being slightly defective.

No.

VALUE of GOLD and SILVER IMPORTED from each PRINCIPAL FOREIGN COUNTRY and from

COUNTRIES.	1877-78.	1878-79.	1879-80.	1880-81.	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.
